

Counseling Psychology Program
Program Handbook
Department of Psychological and Quantitative Foundations
College of Education
University of Iowa

Revised August 2022

Preface

We assembled the materials contained in this handbook from various sources for the convenience of present and prospective graduate students in the Counseling Psychology (CP) program. This handbook is not an official publication of The University of Iowa and in case of conflict is superseded by the Manual of Rules and Regulations of the Graduate College. All faculty members have a copy of this manual and it is posted on our website. Certain program requirements are purposefully more stringent than those of the Graduate College, and do not constitute a conflict.

These policies are considered binding only within the CP program of the College of Education (COE) and can be revised at any time by action of the CP faculty. The remaining policies pertinent to CP students are those of the University of Iowa COE and taken from various official University publications. *We govern a student's program of study by the regulations operative on the date of the student's initial matriculation, unless the student chooses to be regulated by policies adopted subsequently.*

H. Student Records _____	98

I. Program Overview

A. Mission Statement of Iowa CP Program

The Counseling Psychology program at The University of Iowa is a doctoral program that was granted full accreditation by the American Psychological Association in the Spring of 1980 and has maintained continuous accreditation since that time. We are a scientist-practitioner program that trains students to create and disseminate scholarly research as well as engage in evidence-based practice. No master's degree is offered through the program. The program aims to train psychologists who are competent in counseling and psychological services informed by the integration of diverse community engaged practice and scholarship. Community Engagement integrates psychotherapy, assessment, research, teaching, and consultation in a reciprocal partnership with the community to advance scholarship and promote psychological well-being for individuals, communities, and the larger society. To achieve our goal, we developed our curriculum to integrate psychological theory, professional development, and research training and to link specifically science and practice to community needs and issues. Our program strives to produce counseling psychologists who promote psychology as both a profession and a science and who apply acquired skills to the advancement of the human condition across local, national and global communities. Our program has a very strong commitment to human diversity and multicultural training, and we include multicultural and community-oriented competencies in every course we teach. Given our belief that the profession of psychology is constantly changing to meet human needs, our faculty and students represent a variety of backgrounds and interests and serve a diverse array of communities.

The counseling psychology doctoral program was reaffirmed accreditation in Spring 2020 with the next site visit occurring in 2029.

B. Definition of Counseling Psychology

Counseling psychology, as an applied psychological specialty, has historical roots in vocational guidance, the mental hygiene movement, and early efforts to facilitate emotional adjustment. A definition of counseling psychology, adopted by the Executive Committee of Division 17 (The Division of Counseling Psychology) in 1983, is as follows:

Definition of Counseling Psychology:

"Counseling Psychology is a specialty within professional psychology that maintains a focus on facilitating personal and interpersonal functioning across the life span.

The specialty pays particular attention to emotional, social, vocational, educational, health-related, developmental, and organizational concerns.

The practice of Counseling Psychology encompasses a broad range of culturally-sensitive practices that help people improve their well-being, alleviate distress and maladjustment, resolve crises, and increase their ability to function better in their lives. With its attention to both to normal developmental issues and problems associated with physical, emotional, and mental disorders, the specialization holds a unique perspective in the broader practice-based areas of psychology.

Counseling Psychologists serve persons of all ages and cultural backgrounds in both individual and group settings. They also consult regularly with organizations seeking to enhance their effectiveness or the well-being of their members.

Interventions used by Counseling Psychologists may be either brief or long-term; they are often problem-specific and goal-directed. These activities are guided by a philosophy that values individual differences and diversity and a focus on prevention, development, and adjustment across the life-span."

While counseling psychology overlaps with other psychological specialties (i.e., clinical psychology, school psychology), its hallmark has been a clear emphasis on identifying and developing personal and social resources and helping the individual make more effective use of them. The University of Iowa's counseling psychology program also emphasizes the importance of working within and with communities to help achieve public mental health goals.

Upon graduation, our students obtain positions as faculty members, health service providers, private practitioners, counseling center staff members, military psychologists, and consultants. The following list represents the initial job placement locations of our recent graduates:

- Postdoctoral Fellowships/Traineeships
- University/College Faculty Members
- University/College Counseling Center Staff Members
- Medical School Faculty Members
- VA Medical Center Staff Psychologists
- Hospital Psychologists
- Pediatric Psychologists
- Neuropsychologists
- Community Mental Health Center Staff
- Private Practice
- Consultation/Business (e.g., IBM, Target)
- Other (Armed Forces, nonprofit organization, FBI)

C. Professional Training Opportunities

The University of Iowa (UI) Counseling Psychology program is dedicated to the training of professional psychologists. All students are required to accumulate a minimum of 450 hours (direct service) of clinical practicum as part of the basic program requirements, although most students complete more hours. Practicum agencies utilized by the Counseling Psychology program include university and college counseling centers; The University of Iowa Hospitals and Clinics (UIHC); VA medical center in Iowa City; The UI's Women's Resource and Action Center; The UI Belin-Blank Center for Gifted Education and Talent Development; Grinnell College Student Health and Counseling Services (SHACS); Scanlan Center for School Mental

Health; and other sites within the community. For most students, the first practicum will be one of three sites including: Iowa's University Counseling Service (UCS; an APA accredited internship site); UI Belin-Blank Center, or the Scanlan Center for School Mental Health. Subsequently, students and faculty work jointly to select advanced practicum sites. The variety of sites ensures students will receive broad training in different treatment modalities and with a diverse clientele. Regularly available at the sites are experiences in individual, conjoint, and group counseling/psychotherapy; assessment; consultation; and outreach and prevention. Depending on the site, students may gain experience in working with developmental problems, relational concerns, substance abuse, marital and family problems, rehabilitation and health concerns, neuropsychological assessment, and severe psychopathology. Furthermore, the clientele across sites presents a diversity in age, race/ethnicity, sexual orientation, and educational level. Our program is committed to training psychologists to be competent in their work with diverse populations. During almost all practica, students receive supervision from a licensed psychologist or supervision that is supervised by a licensed psychologist. Faculty must approve all instances where a licensed professional other than a psychologist provides supervision. Faculty members who serve as coordinators of practica and internships conduct ongoing evaluation of all practicum sites.

All students are required to complete a year long, full-time pre-doctoral internship. The faculty must approve internship settings; with few exceptions, students choose APA accredited internships.

D. Research Training Opportunities

In addition to receiving training as practitioners, students also are required to become competent in conducting research. Given the various research topics encompassed by the field of counseling psychology, the research interests of the faculty members include many different areas. We match students with a faculty member to serve as an advisor in completing their dissertation. Each faculty advisor holds a research seminar (PSQF:7394) where students will work with faculty on research projects and requirements. This course also is designed to help students learn the skills necessary to complete articles one and two of their dissertation. Students are expected to begin research in their first year by working with their advisors through their research seminar classes.

Several faculty members also conduct research supported by grants. Such projects have included an investigation of the effectiveness of career intervention programs, developing measures to assess psychological diagnoses (autism), research on minority student development, and outcomes of psychotherapy.

No research can proceed without the approval of the appropriate UI Institutional Review Board. This applies to research conducted off campus (e.g., an internship or practicum site) or in collaboration with researchers from elsewhere in the University. In such cases, all involved departments and sites review the research. Information on human subjects approval is available at <http://research.uiowa.edu/hso/>. **All student research must be supervised by a CP faculty member who is listed on any IRB submitted by students.**

E. Faculty

The members of the CP program faculty have varied backgrounds and interests. Consistent with the goals of the training program, members of the faculty reflect expertise as professional psychologists and researchers. All members of the faculty are actively involved in professional associations, including the American Psychological Association and the Iowa Psychological Association, and are active in publishing their own work and reviewing the work of others.

The following list highlights the interest areas of faculty members:

Saba Rasheed Ali, Ph.D. (University of Oregon)

Professor, Interim Department Executive Officer, and Associate Dean for Research
Office: 362 Lindquist Center (319-335-5495)

Interest areas: Career development of rural youth, social class issues, feminism and multiculturalism, Islam and Psychology, public policy

Charles J. Bermingham, Ph.D. (University of Iowa)

Clinical Associate Professor
Grinnell College Doctoral Program Director
Office: 352 Lindquist Center

Interest areas: Group and individual counseling, with an appreciation for unique contexts and clients' identities, supervision, outreach to connect with a variety of communities.

Dan Clay, Ph.D. (University of Missouri)

Professor and Dean
Office: N201 Lindquist Center

Interest areas: pediatric psychology.

Alissa Doobay, Ph.D. (University of Iowa)

Director of Clinical Services, Scanlan Center for School Mental Health
Clinical Associate Professor
Office: 409 Plaza Centre One (319-335-2894)

Interest areas: Assessment and counseling with high-ability students who have a co-existing disability (Twice-exceptionality), autism, child and adolescent mental health, school mental health

Megan Foley Nicpon, Ph.D. (Arizona State University)

Myron and Jacqueline Blank Endowed Chair & Director, Belin-Blank Center; Professor
Office: 600 Blank Honors Center

Interest areas: Assessment, counseling, and educational intervention with talented students who have a co-existing disability; talent development among underrepresented groups; social and emotional development of talented and diverse students.

Martin Kivlighan, Ph.D. (University of Wisconsin-Madison)

Associate Professor
Office: N334 Lindquist Center (319-335-5333)

Interest areas: Psychotherapy process and outcome, group therapy, therapist effects, psychotherapy training, psycho oncology, and multicultural counseling

Julie Koch, Ph.D. (University of Minnesota-Twin Cities)

Professor

Office: 360 Lindquist Center (319-467-0490)

Interest areas: Human rights and social justice; leadership; supervision, training, and development of faculty and counseling psychologists; LGBTQ mental health and affirmative practice, especially in rural and international settings; prevention in school settings; microaffirmation.

Stacey McElroy-Heltzel, Ph.D. (Georgia State University)

Assistant Professor

Office: N336 Lindquist Center (319-467-1651)

Interest areas: Positive psychology, particularly humility and its subdomains (e.g., cultural humility, intellectual humility, political humility); forgiveness; religion/spirituality; measurement development and evaluation; and multicultural families.

Barry A. Schreier, Ph.D. (University of Missouri-Kansas City)

Director of Higher Education Programming, Scanlan Center for School Mental Health, Clinical Professor

Office: S368 Lindquist Center

Interest areas: GLBTQ interests and concerns, Trans* communities issues related to gender identity, gender expression, and transition, psychological training and supervision, multicultural competence training in psychology, ethics related to clinical practice, group therapy systems, competent leadership, and humor in therapy.

Staff

Kunjai Harwani, Administrative Services Administrator, Psychological & Quantitative Foundations

Office: 361 Lindquist Center (319-335-5579)

Kunjai-harwani@uiowa.edu

Isaac Hooley, PhD, Practicum Coordinator, Project Director for Building a Mental Health Workforce to Serve Rural Iowa Youth Sponsored by the U.S. Department of Health and Human Services, Health Resources and Services Administration, Behavioral Health Workforce Education and Training.

Office: N364 Lindquist Center

Isaac-hooley@uiowa.edu

Patricia Martin, Secretary, Psychological & Quantitative Foundations

Office: 361 Lindquist Center (319-335-5578)

Patricia-martin@uiowa.edu

Emeriti Faculty

John S. Westefeld, Ph.D. (University of North Carolina)

Professor Emeritus

Licensed Psychologist, State of Iowa; Diplomate in Counseling Psychology

Fellow, American Psychological Association

Elizabeth Altmaier, Ph.D (The Ohio State University)
 Professor Emerita
 Licensed Psychologist, State of Iowa
 Fellow, American Psychological Association

Adjunct Faculty

These faculty members perform a variety of tasks within our CP community including providing supervision for our students, occasional teaching, and colloquia.

Audrey Bahrnick, Ph.D.

Julie Corkery, Ph.D.

Haley Downing, Ph.D.

Carissa Gehl, Ph.D.

Joyce Goins, Ph.D.

Bryan Jensen, Ph.D.

Valerie Keffala, Ph.D.

Huan-Chung Scott Liu, Ph.D.

Karen Nelson, Ph.D.

Daniel Orme, Ph.D.

Stacey Pawlak, Ph.D.

Regan Slater, Ph.D.

Doris J. Stormoen, Ph.D.

F. Students

The Counseling Psychology program admits a limited number of students each year to ensure a close working relationship between faculty and students in training. The student population reflects a balance of gender, age, cultural background, educational background, and career plans. About 58% percent of the students identify as women and about 40% identify as persons of color. The age distribution of students is from early 20's to early 50's. Our attrition/drop-out rate is about 10%. Students entering the program have a variety of undergraduate majors and previous employment experiences. Those students who do not have undergraduate majors in psychology or who have not had psychology coursework are encouraged to take basic courses in psychology prior to applying to the CP program.

When students first enter the CP program at UI, they are assigned an advisor based on faculty/student interests, faculty expertise, and current advising loads. Students are able to switch advisors during their tenure at Iowa after consultation with the current advisor, the future advisor, and the CP program coordinator. Faculty may also initiate this process. We must follow all graduate college policies, and the educational priorities of the student are of the utmost importance. The entire CP faculty will be consulted in the event of an irreconcilable conflict.

II. Degree Requirements

A. Curriculum Requirements

Students complete course work in each of the following areas:

- College-Wide Research Requirements
- Discipline Specific Knowledge
- Counseling Psychology Core
- Electives

In addition to course work, students receive training in professional psychology and research. Professional training is obtained through a practicum sequence, practicum class, and a y12-month predoctoral internship. Research training is obtained through required course work, research seminar class, research team membership, and completion of the two-article dissertation.

If the student progresses at the expected rate, the program takes approximately 5-6 years to complete (including the predoctoral internship). In addition to the requirements listed above, the student must also complete the comprehensive exam process, which includes an oral and written defense.

Please note the CP program is a full-time program; thus, students cannot complete the program on a part-time basis. As mentioned above, the CP program requires students to integrate course work in general psychology and counseling psychology with an active research program. Applicants who are interested in professional (practitioner) training only are encouraged to consider programs in professional schools of psychology.

1. Research Requirements (Please see COE policy <https://education.uiowa.edu/student-experience/graduate-student-life/#-phd-research-requirements>). The COE and CP program require 4 research courses.

CP students must take at least two quantitative statistics/research methodology courses. First, students take PSQF:6243 (Intermediate Statistical Methods). Next, students take either PSQF:6246 (Design of Experiments) OR PSQF:6244 (Correlation and Regression) OR PSQF:7201 (Research Writing).

CP students must take a one credit course on psychometrics (PSQF:5900).

CP students must take at least one qualitative research course. College of Education courses that may be used for meeting qualitative requirements include PSQF:7331 (Qualitative Educational Research Methods), EPLS: 7373 (Qualitative Research Design and Methods), RCE:7338 (Essentials of Qualitative Inquiry in Education), or EDTL:7070 (Introduction to Qualitative Methods in Literacy Research).

CP students must take PSQF:7394 (Supervised Research in Counseling Psychology) for at least 6 credits (1 credit per semester for at least 6 semesters).

Total required semester hours for research are 16

2. DSK (Discipline Specific Knowledge) requirements (**15 semester hours**). To ensure a thorough grounding in psychology, the program requires all students take approved course work in each of the following DSK areas:

Biological Aspects of Behavior

3 s.h.

PSY:6370 Principles of Neuropsychology	
PSY:6440 Developmental Cognitive Neuroscience	
Cognitive Aspects of Behavior	3 s.h.
PSY:6230 Foundations in Learning, Memory, & Cognition	
PSY:5212 Foundations in Behav & Cog Neuroscience	
PSY:5610 Proseminar in Cognition and Perception	
PSQF:6281 Cognitive Theories of Learning	
PSQF:6200 Educational Psychology	
PSY:6590 Judgment and Decision Making	
Social Aspects of Behavior	3 s.h.
SOC:6210 Contemporary Approaches to Social Psychology	
PSQF:7367 Social Psychology and Social Systems	
History & Systems of Psychology	3 s.h.
PSQF:7320 History and Systems of Psychology	
Developmental Aspects of Behavior	3 s.h.
PSQF:6312 Psychopathology Across the Lifespan	
3. Counseling Psychology Core Requirements (minimum of 54 semester hours).	
PSQF:6225 Intro CP Practice, Research, and Theory	3 s.h.
PSFQ:7452 Leadership, Consultation, and Supervision	3 s.h.
PSQF:7365 Theories of Psychotherapy	3 s.h.
PSQF:7310 Intelligence Assessment	3 s.h.
PSQF:7309 Personality Assessment	3 s.h.
PSQF:7356 Processes and Outcomes in Counseling/Psychotherapy	3 s.h.
PSQF:7465 Issues and Ethics in Professional Psychology	3 s.h.
PSQF:6235 Multicultural Counseling	3 s.h.
PSQF:7306 Work Psychology and Career Interventions	3 s.h.
PSQF:7457 Advanced Group Leadership Experience	3 s.h.*
PSQF:7354 Internship Readiness/Professional Issues	3 s.h.

Practicum. Students must complete PSQF:7434 Beginning Practicum in Counseling Psychology and then repeat PSQF:7453 Advanced Practicum in Counseling Psychology. Beginning practicum (PSQF:7434) is the first course in the practicum sequence. Students must successfully complete at least one semester of PSQF:7434 before enrolling in PSQF:7453. Students typically complete five or more advanced practica at various sites approved by the Counseling Psychology faculty. **Minimum required semester hours for practicum is 18. However, if a student has met the 18 hours and is participating in an additional practicum experience, the student MUST be enrolled in advanced practicum for university liability purposes.**

Many students also do practicum during the summer sessions (usually during the 8-week terms). Students may enroll for summer practicum if they anticipate client contact or are engaged in training and education that may entail client contact. Practicum during the summer is not required, however students sometimes use this time to orient to new practicum sites or complete required training and education per site requirements.

~~*Students must complete a group therapy/counseling/theories course before participating in any group related therapy activities (support groups, therapy groups, intervention groups, etc.).~~

4. Electives. The remainder of the program is planned individually and in collaboration with the doctoral student's major adviser. Electives need to be graduate-level courses (most are 6000 level or above, some in PSY are upper 5000s; **minimum of 6 s.h.**)

Additional curriculum requirements

Comprehensive Exam Review. Students must complete documentation and faculty approval of the documents related to comprehensive exams. Please see the COE website for further information: <https://education.uiowa.edu/student-experience/graduate-student-life#graduate-exams>

Internship. Students spend a calendar year at an internship setting accredited by the American Psychological Association or, in rare cases, a non-APA accredited site approved by the Counseling Psychology faculty. The faculty will determine student readiness to apply for internship based on the following criteria:

- A. Completion of all or almost all required course work. (Note: students may be completing research courses during their fifth year after the internship application.)
- B. Successful completion and defense of comprehensive exams.
- C. Committee approval of the dissertation proposal.
- D. Successful completion of practicum requirements (with 3 outstanding practicum credits to be completed during their final semester).

Students who have completed and successfully defended their dissertations prior to leaving for internship may enroll in PSQF:7458 (Internship in Counseling Psychology) during their internship year.

Dissertation. Two-article style dissertation includes one preliminary article (conceptual or empirical) and another empirical study that builds from the first article. Students enroll in dissertation credit hours after passing comprehensive exams (**12 dissertation credit hours**).

Other. Students must evidence appropriate levels of emotional balance and interpersonal skills. The student must also act within the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct.

101 total hours are required for the degree.

Below are two tentative course sequences for students entering with a master's in an applied counseling field and for students entering the program with a bachelor's or a master's or advanced degree from a non-applied counseling field. This "typical" schedule is both flexible and incomplete. Each student and his or her adviser must individualize the program and plan for more course work to be completed in order to fulfill the 101 semester hour requirement.

Dissertation credits are 12 semester hours and typically are added once research seminar credits are complete.

At a minimum, the hours accrued are these: 16 for research, 15 for core courses, 33 for CP courses, 18 for practicum credits (not including summer practicum), 12 credits for dissertation, and 6 credits for electives. Total minimum credits is 101.

Students who hold half-time assistantships are limited to 13 semester hours per semester (4 courses plus research seminar, which is 1 credit) per Graduate College policies.

At the end of the fourth year, students should have completed the majority of course requirements. Typically, students spend their final year completing the pre-doctoral internship requirement.

B. Practicum Guidelines and Information

1. Introduction

As an APA-accredited program, we endorse the guidelines concerning practicum training outlined in the APA Commission on Accreditation Implementing Regulations for Doctoral Graduate programs. Practicum is a central component of the curriculum; successful completion of the practicum requirement is prerequisite to applying for internship and, of course, receiving the degree. Practicum facilitates the following capacities:

1. Understanding of and commitment to professional and social responsibility as defined by the ethical codes of the profession;
2. The capability to conceptualize human problems;
3. Awareness of the full range of human diversity;
4. Understanding of one's own personality and biases and of one's impact upon others in professional interactions;
5. Skills in relevant interpersonal interactions such as systematic observation of behavior, interviewing, psychological testing, diagnosis, psychotherapy, counseling, and consultation; and
6. Ability to contribute to current knowledge and practice.

In addition to satisfactory performance in practicum courses, students have several responsibilities related to selecting sites, applying for practicum, documenting practicum activities, receiving supervision, and evaluating aspects of the practicum experience. These guidelines are designed to orient students to the practicum sequence, including requirements, sites, and procedures for application and evaluation, and to specify respective student and staff responsibilities. The guidelines are program policy; exceptions to them are made only with the approval of the counseling psychology faculty.

Direct questions about practicum to the Practicum Coordinator. This includes comments concerning the practicum sequence, sites, instructors, or supervisors, and issues requiring the consideration or action of the counseling psychology faculty.

2. Client Contact and Supervision Requirements

In our program, students are required to have a minimum of 450 direct clinical hours and at least 75 hours of supervision to apply for internship readiness. Support hours are devoted to such activities as writing case notes and assessment reports, processing recordings of clinical work, preparing for sessions, and attending case conferences and practicum seminar meetings.

We require students take at least six semesters of practicum (one semester of Beginning Practicum and at least five semesters of Advanced Practicum). Students typically log approximately 150 hours of practicum activity over the course of a semester, of which about 50-75 are direct client contact and about 20 are individual supervision.

Direct client contact refers to individual (including assessment), conjoint, and group counseling. It includes intake interviews and sessions conducted with another counselor, if the student actively participates (otherwise, it is considered observation). Group counseling may consist of group therapy or programming/outreach activities. In counting hours, sessions less than 40 minutes equal ½ hour; sessions between 40 and 70 minutes equal 1 hour; sessions greater than 70 minutes equal 1 ½ hours; and so on. When documenting group counseling, count hours based on time spent in direct contact with clients; the number of clients in the group is not necessarily relevant, but documenting demographics of individual group members is important.

Supervision consists of scheduled, weekly meetings with an assigned supervisor, who is a licensed psychologist or, in some cases, a non-licensed person who is directly supervised by a licensed psychologist (who is, in turn, the "supervisor of record"). The supervisor may be on staff at the site, or if a supervisor is unavailable at the site, a member of the counseling psychology faculty will provide the supervision. In rare cases, a non-licensed psychologist (LMFT, for example) may supervise students, but this arrangement must be approved by the CP faculty (change Fall 2018). At least some portion of the supervision has to be in the form of observation via video recording or live supervision. Between 1 and 1 ½ hours per week should be devoted to supervision.

A. Issues in Supervision

Bring serious issues and concerns regarding the supervisory relationship to the immediate attention of the practicum instructor. Although students will be encouraged to work through supervision issues with their supervisors, in some cases it may be appropriate to request a change of supervisor. Consult with the Practicum Coordinator in such cases.

B. Supervisor Resources

The availability of supervisors may be extremely limited. At many sites, no alternative assignment is possible, and a student who cannot work with the available supervisor will have to withdraw from the site. Therefore, before applying to a site, students must carefully assess the supervisory resources at the site – or on the faculty, if the supervisors are not on site – and consider those factors in determining the appropriateness of the site. Students should, for example, consider the appropriateness and desirability of supervisory relationships with individuals with whom they have other important (advisor, research collaborator, etc.) relationships. If students have questions about supervisor resources for a given site, they should direct them to the Practicum Coordinator.

It is the student's responsibility to record the hours devoted to the various activities in practicum using the Documentation Form provided by the program. Keep documentation current, as the supervisor or practicum instructor may ask to see them at any time. Since applications for internships require specific information about practicum hours, it is critical that students be vigilant about recording their experiences in practicum. All activities directly related to the student's practicum should be documented (e.g., reading in preparation for a client, peer/staff consultation about a client). The Practicum Documentation Form is submitted to the practicum instructor at the end of the semester and placed in the student's training file.

3. Practicum Sites and Application Process

Students with an adult focus complete their first practicum at the University Counseling Service (UCS), under course number PSQF:7434. Students with a child/adolescent focus complete their first practicum at the Belin-Blank Center or Scanlan Center for School Mental Health.

Subsequent practica (called "advanced") may be completed at a variety of approved sites, under course number PSQF:7453. Students are responsible for applying for advanced practicum placements. A list of approved sites and file of site evaluations are available from the Practicum Coordinator. All practicum forms are available on the program's website.

Counseling psychology faculty must approve all practicum sites. Students interested in an unapproved site may ask the counseling psychology faculty to consider the site for approval but may not use the site until approval is granted. Faculty may approve sites for one individual placement, rather than as a regularly approved site for the program. See the **Procedures** section for the process for obtaining faculty approval for such "specialized" placements. **Sites are required to provide appropriate supervision, and to require no more than 18 hours per week on-site from each student.**

The University defends and indemnifies students and faculty against claims for damages based on negligence under the State Tort Claim Act of 1975. Registration is required for this protection to be in effect. Thus, students with multi-semester placements who plan to work during semester breaks must be given an incomplete until the beginning of the next term. Students make arrangements for the incomplete with the practicum instructor early in the semester. The University requires all students completing practicum off campus (meaning the site has no affiliation with the University or University Hospitals and Clinics) sign an "affiliation agreement," or contract, with the site. The Practicum Coordinator will initiate this process before training begins. Some sites require students to submit to a background check and orientation. .

4. Procedures

Faculty design the practicum procedures to reflect the shared responsibilities and rights of students, sites, and faculty for appropriate practicum placements. Students have choices of sites to which to apply and select. Sites have final determination in selection of students. Faculty approve both sites and specific student applications.

Application Procedures

1. The Practicum Coordinator posts the practicum application schedule and list of *Approved Practicum Sites*, which indicates the number of openings for the following academic year. The practicum coordinator gathers information from practicum sites and shares general information from site evaluations to aid students in selecting sites appropriate for their goals. Students are also encouraged to discuss selections with their advisor and other students. Students should note if there are specific prerequisites of each site (e.g., previous therapy experience; familiarity with MMPI-2) prior to applying.
2. Students rank three practicum sites and submit the *Practicum Choice Form* to the Practicum Coordinator by the specified due date. The student's advisor must sign this form.

3. Students who wish to apply to a new, unapproved site must submit the following materials to the Practicum Coordinator in addition to the Practicum Choice Form: a) a memorandum detailing the practicum site, planned practicum activities, and means of supervision (including supervisor name and credentials, amount of supervision each week, and supervision methods) and b) a letter addressed to the Practicum Coordinator from the on-site supervisor outlining the same points and confirming their intention to provide individual supervision to the student or a ***Proposal for a New Practicum Site*** completed by the on-site supervisor. Note that the ***Practicum Choice Form*** should list two or three approved sites, in addition to the unapproved site.

Although applying for an unapproved site necessarily involves contacting the site before the faculty convene to approve practicum choices, students must keep in mind that no commitments are to be made before faculty approval is obtained.

4. Students who wish to apply for a previously approved but "specialized" site (i.e., previously approved by faculty for an individual student but not considered a "regular" practicum placement) also must submit documentation to the Practicum Coordinator following the same procedure as outlined for unapproved sites.
5. Counseling psychology faculty approve the sites to which students may submit applications, based on: a) student readiness and b) site needs. Although faculty makes every effort to honor students' requests, the faculty reserves the right to suggest and approve alternative sites.
6. The practicum coordinator and/or advisor will notify a student if they are not permitted to apply to a site noted on the choice form.
7. Students will prepare vitae for those sites and submit it to them by the date specified by the Practicum Coordinator. An outline of content areas to be included on a vita is available; adaptations may be made so information relevant to the practicum sites is provided in sufficient detail. Students may also wish to solicit feedback from their advisors regarding vita content and style.
8. On the date specified by the Practicum Coordinator, students will send their vitae to sites and request an interview. Under no circumstances should interviews be arranged, either informally or formally, prior to this date.
9. Students contact sites and interview. Students are expected to complete interviews at all sites for which they were approved.
10. Students inform the Practicum Coordinator when they have accepted a site.
11. Students contact other site(s) at which they interviewed to inform them of choice.
12. Students who request to be dropped or to withdraw from a practicum site before they start at the practicum site or during their practicum must seek approval by the entire faculty (change approved on 8-2010).

Guidelines

1. Students should discuss with their advisor their practicum options.
3. Adherence to the timeline is an absolute must.
4. Prepare vitae carefully and completely. Attend to spelling, grammar, etc., too.
5. Dress in a professional manner for interviews.
6. Thank supervisors for the interview and inform all of them of your final decision.

5. Evaluation

Evaluation in a given semester of practicum is largely an individual matter, based on specific goals set by the student and the supervisor, with input from the counseling psychology faculty. Students should use the evaluation form as a guideline for selecting specific areas of growth they wish to target in a given semester. It is the joint responsibility of the student and supervisor, at the beginning of the semester, to create a "contract" that defines the student's goals for that semester. It is their responsibility, also, to provide specific evidence of their progress with these goals at formal evaluation sessions.

Formal evaluation ideally takes place at the end of each semester. The student and the supervisor provide the practicum instructor with a written evaluation on the *Evaluation Form* provided by the program (*Beginning Practicum Evaluation or Advanced Practicum Rating Form*). A copy of the evaluation is placed in the student's training file. The practicum instructor, upon considering the evaluation, awards the student a grade (satisfactory or unsatisfactory).

Students evaluate their practicum experiences by completing the *Practicum Site Evaluation*, which the Program Coordinator keeps and makes available to other CP students, if requested. Additionally, the *Doctoral Practicum Documentation Form* and student evaluation form must be submitted to the practicum instructor by the assigned deadline or a grade of incomplete will be assigned.

The counseling psychology faculty takes a developmental approach to evaluation of students' practicum performance and utilizes the APA Competency Benchmarks in Professional Psychology (<http://www.apa.org/ed/graduate/benchmarks-evaluation-system.aspx>). Both at the Beginning Practicum and Advanced Practicum levels, students are evaluated on their successful attainment of *foundational competencies* (professionalism, relational, and science) and *functional competencies* (application, education, and systems). Students in a first Advanced Practicum would typically be rated lower than those in a fourth Advanced Practicum, although regardless of the number of previous practica, any given student may show varying levels of development in the different areas.

Students who are ending their service at a site will be responsible for termination or transferring their clients, working closely with their site supervisors. Students who are continuing at the same site may receive an Incomplete grade (to maintain coverage if their site supervisor believes it is important to maintain services over break). The student is responsible for submitting their required paperwork and contacting the practicum instructor who gave the Incomplete early in the new semester to change the grade, so that it does not turn into an F.

The understanding and appreciation of human diversity (particularly according to age, gender, ethnicity, culture, religion, and sexual orientation) is crucial for becoming a competent psychologist. Thus, evaluation of students' development in this domain is integrated within each area represented on the evaluation form.

GOAL FOR PRACTICUM

Services Agreement between The University of Iowa Counseling Psychology Program and Practicum Site

This Services Agreement (“Agreement”) is made and entered into on this ___ day of _____, 202_ (“Effective Date”), by and between _____ and the University of Iowa, through its College of Education, Department of Psychological and Quantitative Foundations Counseling Psychology Program (“UI”) for the provision of counseling and psychological services by counseling psychology doctoral students.

RECITALS

WHEREAS, UI employs counseling psychologists on its faculty with extensive clinical experience;

WHEREAS, UI administers a graduate program in Counseling Psychology in which students undertake experiential learning activities;

WHEREAS, _____ has determined that certain counseling and psychological services be available to its client population; and

WHEREAS, _____ desires to engage UI doctoral students to provide professional services as described in this Agreement and UI desires to provide such services to _____.

IN CONSIDERATION of the above recitals and the mutual covenants contained in this Agreement, the parties agree as follows:

1. **SERVICES.** In accordance with all the terms and conditions of this Agreement, _____ hereby engages UI to provide the services (“Services”) set forth in this Agreement, by UI graduate students in counseling psychology doctoral program (“Doctoral Students”).
2. **STANDARD OF CARE.** UI CP doctoral students shall perform Services in accordance with the accepted standard of care in the professional specialty of counseling psychology under Iowa law and under guidance of training standards set by the UI CP program. _____ shall not exercise any control or direction over the progress of said students without first a.) informing the student and UI CP program faculty of areas of concern as early as possible and providing opportunities for remediation b.) said remediation should be created in collaboration with UI CP program faculty c.) _____ may evaluate remediation plan in collaboration with UI CP program faculty and outcome of this evaluation should be communicated to student and CP faculty d.) should the decision be to dismiss a student from a practicum site UI CP faculty will work with the student to determine next clinical training steps e.) UI CP faculty retains the right to determine if/how this dismissal will be recorded in the students’ academic files and if it reaches the threshold necessary to be reported to outside entities.
3. **QUALIFICATIONS.** As a condition to participating under this Agreement, each practicum site shall employ or partner with an experienced psychologist, at all times during the term of this Agreement, possess the qualifications set forth below.

- 3.1 State Licensure. Supervisors shall be duly licensed to provide the Services without restriction. Such supervisors will provide current proof of licensure to UI.

4. **COVERAGE REQUIREMENTS.**

- 4.1 _____ shall have a right to participate in the process selecting any Doctoral Student to provide Services under this Agreement. UI shall retain final decision about Doctoral Students' eligibility to accept offer at given practicum setting.
- 4.2 Representatives of _____ and UI shall meet with the other promptly following every reasonable request of the other to discuss any concerns or problems that have occurred with respect to any Doctoral Student. In the event the parties are unable to resolve any concern or problem that has arisen with respect to any Doctoral Student within thirty (30) days of the date notice of the concern or problem and request for a meeting with respect thereto was given by _____ or UI to the other (except that the thirty (30) day period shall be reduced to three (3) days in the event the particular concern or problem relates to the safety and wellbeing of clients or any illegal or fraudulent act), the Doctoral Student shall no longer provide any Services under this Agreement. Nothing in this Section 4.2 is intended, nor shall be interpreted, as restricting or limiting UI's right to terminate the placement of any Doctoral Student pursuant to the terms and conditions of agreement between UI and the Doctoral Student.
- 4.3 UI and _____ agree to provide all training without regard to race, color, gender, sexual orientation, age, religion, disability status, or other factors unrelated to the students' provision of Services.
- 4.4 Responsibility. _____ agrees and acknowledges that _____ is ultimately responsible for its operations and determining the level of overall coverage it deems appropriate.

5. **STATUS OF PARTIES.**

- 5.1 The parties understand and agree that Doctoral Students are engaged by this Agreement strictly as practicum students and that nothing in this Agreement is intended or shall be construed to create an employer-employee relationship, a joint venture relationship, or to allow _____ to exercise control or direction over the manner or method by which Doctoral Students matriculate through their program of study.

6. **OPERATIONS.**

- 6.1 _____ shall at all times exercise ultimate control over the assets and operations of _____ and determine all policies and issues regarding the operation of _____. _____ shall notify UI of any determinations of _____ that may materially affect the performance of Services.

- 6.2 _____ shall provide all necessary space for Doctoral Students to perform Services as required herein.
- 6.3 _____ shall be solely responsible for its compliance with applicable licensure, accreditation, quality assurance program, and regulatory survey standards and requirements as it relates to the operation of any counseling and/or psychological services provided.
- 6.4 UI shall comply with applicable standards, policies and procedures of _____ including without limitation, policies governing workplace discrimination and harassment, conflicts of interest, e-mail usage, and risk management. These standards should be clearly communicated to students.
- 6.5 Each student shall comply with any dress code requirements imposed by _____.

7. COUNSELING RECORDS AND CONFIDENTIALITY.

7.1 Student Information. All student information shall be regarded by both parties as confidential and both parties shall comply with all federal and state laws and regulations pertaining to confidentiality of education records, including but not limited to the Family Education and Right to Privacy Act (“FERPA”) 20 U.S.C. 1232g, *et seq.*, and the regulations promulgated thereunder. Such information is considered confidential and is therefore protected from disclosure except in accordance with FERPA.

7.2 Counseling Records. _____ shall be responsible for the proper keeping and maintenance of student counseling records and _____ other data. Such records shall be and remain the property of _____.

8. **USE OF NAME.** The parties agree they will not use the other party’s name or intellectual property, including trademarks, in any manner, including commercial advertising or as a business reference, without the expressed prior written consent of the other party. Any publicity regarding the Services provided pursuant to this Agreement will be the joint responsibility of UI and _____. The parties shall not take any action and shall refrain from taking any action which would mislead the public as to the true nature of the relationship between UI and _____.

9. TERM AND TERMINATION.

9.1 Term and Expiration. This Agreement shall commence on the Effective Date and continue until _____; provided, however, the Services to be provided under this Agreement shall occur only during the time UI is in session; any expectation of Doctoral Students to provide services during breaks must be explicitly discussed with the Doctoral Students prior to your _____ offer/their acceptance of a practicum position. UI faculty must also approve Doctoral students to provide services during said breaks, and readily available supervision must be available to Doctoral Students in such situations.

9.2 Termination. This Agreement may be terminated as follows:

- (i) By mutual written agreement of the parties;
- (ii) In accordance with the terms of Section 2;
- (iii) By either party, without cause, upon giving 60 days prior written notice to the other party, with such termination to become effective upon the day after the expiration of such notice period;
- (iv) By either party in the event that the other party has materially defaulted in the performance of any obligation under this Agreement and such default shall not have been cured within 30 days following the receipt of notice to the reasonable satisfaction of the noticing party

10. LIABILITY AND INSURANCE.

10.1 UI Liability. UI agrees for itself and on behalf of its Doctoral Students and any other employee to be responsible for any and all claims and liability for injury to persons or property directly arising out of or caused by the negligence of UI, its employees or agents (including Doctoral Students) in the performance of its duties and obligations under this Agreement, to the extent permitted by Chapter 669 of the Code of Iowa.

10.2 Liability. _____ agrees for itself and on behalf of its employees to be responsible for any and all claims and liability for injury to persons or property directly arising out of or caused by the negligence of _____, its employees or agents, in the performance of its duties and obligations under this Agreement, to the extent permitted by applicable law.

10.3 UI Insurance.

- (i) UI shall at all times during the term of this Agreement obtain and maintain professional liability insurance coverage through self-insurance for its Faculty and commercial professional liability coverage for its Doctoral Students providing Services pursuant to this Agreement. Such coverage shall insure against claims that could be brought against it or any Doctoral Students rendered under this Agreement in an amount not less than One Million Dollars (\$1,000,000) per occurrence and Three Million Dollars (\$3,000,000) aggregate per policy year.

10.4 Insurance. _____ shall at all times during the term of this Agreement obtain and maintain at its expense general and professional liability insurance coverage for itself and its employees and agents for all claims of professional and/or general liability made during the term of this Agreement or thereafter arising from _____'s or its employees' or agents' performance under this Agreement.

10.5 Claims. Each party shall promptly notify the other of any claims in connection with any activity undertaken by either party under this Agreement, and, subject to applicable laws, of any facts and circumstances known to each which relate to such claim or which might

reasonably be deemed to give rise to a future claim asserted against the parties or any of their respective agents or employees in connection with such activities.

11. MISCELLANEOUS.

11.1 Doctoral Students. You can expect the number of Doctoral Students who will apply to your site will vary from year to year. There are a variety of factors that influence student interest in practicum settings. UI will ask that you provide a description of your site, including any unique expectations, for Doctoral Student consideration prior to their application to practicum sites.

If a Doctoral Student terminates their service before completing the semester/year, it is unlikely that another Doctoral Student to fill that position in that semester/year.

11.2 Facilities and Equipment. _____ is responsible for appropriate computer, software and other equipment necessary for the work conducted at each institution.

11.3 Travel Expenses. It is up to your site to determine if parking and/or travel expenses will be covered for Doctoral Students.

11.4 Governing Law. This Agreement shall be construed and interpreted under the laws of the State of Iowa.

11.5 Disputes. In the event of any dispute arising from or relating to this Agreement, the parties hereto shall seek to settle the dispute. To this effect, they shall consult and negotiate with each other and, recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both parties.

11.6 Compliance. Each of the parties shall comply with all laws, rules, and regulations adopted by the federal, state and local government authorities pertaining in any way to the performance of this Agreement.

11.7 Notice. All communications or notices required or permitted by this Agreement must be in writing and will be deemed to have been given at the earlier of the date when actually delivered to a party or when deposited in United States mail, certified or registered mail, postage prepaid, return receipt requested, and addressed as follows, unless and until either of the parties notifies the other in accordance with this section of a change of address:

If to UI:
 Martin Kivlighan, Ph.D.
 360 Lindquist Center
 The University of Iowa
 Iowa City, Iowa 52242

If to _____:

IN WITNESS WHEREOF, the duly authorized representatives of the parties have executed this Agreement.

PRACTICUM SITE AND SUPERVISOR EVALUATION

Return to: Practicum Coordinator

Site: _____

Supervisor: _____

Semester/Year: _____

Student (completing the evaluation): _____

*Approximately what percentage of your time did you spend in the following activities?

Personal counseling	_____	Consultation/outreach	_____
Workshops/programming	_____	Supervision	_____
Group counseling	_____	Report writing/paperwork	_____
Career/academic counseling	_____	Other (specify)	_____
Assessment/testing	_____		_____

What are the strengths of this site and/or supervisor?

What training/experience opportunities could the site and/or supervisor improve upon?

*Given your experience at this site, what additional information do you think would be beneficial to future students considering a practicum at this site?

*The responses to these two questions may be used to anonymously inform our students via the practicum webpage.

DOCTORAL PRACTICUM DOCUMENTATION – UNIVERSITY OF IOWA

Revised 01/17 Semester and Year _____

Name _____ Site _____

Supervisor(s) _____

The purpose of this form is to allow students to document their clinical experiences in a format consistent with the APPIC Application for Psychology Internships (AAPI).

In filling out this form, please note the following definitions used by APPIC:

- Practicum hour – A practicum hour is a clock hour. A 45 – 50 minute client/patient hour may be counted as one practicum hour.

INTERVENTION AND ASSESSMENT EXPERIENCE

Please report actual clock hours in direct service to clients/patients. Also, complete Attachment A for this section. Hours should not be counted in more than one category. Time spent gathering information about the client/patient, but not in the actual presence of the client/patient, should instead be recorded under item 2, below (“Support Activities”).

For the “Total hours face-to-face” columns, count each hour of a group, family, or couples session as one practicum hour. For example, a two-hour session with 12 adults is counted as two hours. For the “# of different...” columns, count a couple, family or group as one (1) unit. For example, meeting with a group of 12 adults over a ten-week period counts as one (1) group. Groups may be closed or open membership; but, in either case, count the group as one group.

a. Individual Therapy	Total hours face-to-face	# of different individuals
1) Older Adults (65+)	@	@
2) Adults (18-64)	@	@
3) Adolescents (13-17)	@	@
4) School-Age (6-12)	@	@
5) Preschool Age (3-5)	@	@
6) Infants/Toddlers (0-2)	@	@
b. Career Counseling	Total hours face-to-face	# of different individuals
1) Adults	@	@
2) Adolescents (13-17)	@	@
c. Group Therapy	Total hours face-to-face	# of different individuals
1) Adults	@	@
2) Adolescents (13-17)	@	@

3) Children (12 and under)	@	@
d. Family Therapy	Total hours face-to-face	# of different families
	@	@
e. Couples Therapy	Total hours face-to-face	# of different couples
	@	@
f. School Counseling Intervention	Total hours face-to-face	# of different individuals
1) Consultation	@	@
2) Direct Intervention	@	@
3) Other (Specify: @)	@	@
g. Other Psychological Interventions		
1) Sports Psychology / Performance Enhancement	@	@
2) Medical / Health-Related Interventions	@	@
3) Intake Interview / Structured Interview	@	@
4) Substance Abuse Interventions	@	@
5) Consultations	@	@
6) Other interventions (e.g. milieu therapy, treatment planning with the patient present.)	@	@

Please describe the nature of the experience(s) listed in g-5:

@

h. Psychological Assessment Experience: This is the estimated total number of face-to-face client contact hours administering and providing feedback to clients/patients. This does not include time spent scoring and/or report writing, which should be included under item 2, below ("Support Activities"). You will provide information about numbers of tests administered in Section V.

- | | | |
|--|---|---|
| 1) Psychodiagnostic test administration
(Include symptom assessment, projectives,
personality, objective measures,
achievement, intelligence, and career
assessment), and providing feedback to
clients/patients. | @ | @ |
| 2) Neuropsychological Assessment (Include
intellectual assessment in this category only
when it was administered in the context of
neuropsychological assessment involving
evaluation of multiple cognitive, sensory,
and motor functions). | @ | @ |

- | | | |
|---|---|---|
| 3) Other (Specify – Could include diagnostic assessment; e.g., COD) | @ | @ |
|---|---|---|

i. Other Psychological Experience with Students and/or Organizations:

- | | | |
|--|---|---|
| 1) Supervision of other students performing intervention and assessment activities | @ | @ |
| 2) Outreach Programming | @ | @ |
| 3) Outcome Assessment of programs or projects with client present | @ | @ |
| 4) Systems Intervention/Organizational Consultation/Performance Improvement | @ | @ |
| 5) Other (Specify: @) | @ | @ |

TOTAL INTERVENTION AND ASSESSMENT HOURS

Add the number of hours included in 1a through 1i above

Total Intervention & Assessment Hours:	@	@
---	---	---

SUPPORT ACTIVITIES

This item includes activities spent outside the counseling/therapy hour while still focused on the client/patient.

- | | | |
|--|---|--|
| 1) Case conferences | @ | |
| 2) Case Management/Consultation | @ | |
| 3) Didactic Training/Seminars/Grand Rounds | @ | |
| 4) Progress Notes/Clinical Writing/Chart Review | @ | |
| 5) Psychological Assessment Scoring/ Interpretation and Report Writing | @ | |
| 6) Video-Audio-Digital Recording Review | @ | |
| 7) Outreach program development/preparation | @ | |

Total Support Hours:	@	
-----------------------------	---	--

SUPERVISION RECEIVED

Supervision is divided into one-to-one, group, and peer supervision/consultation.

Item IIIa: Hours are defined as regularly scheduled, face-to-face individual supervision with specific intent of overseeing the psychological services rendered by the student.

Items IIIb and IIIc: The hours recorded in the group supervision category should be actual hours of group focus on specific cases. Many excellent practicum courses incorporate both didactic and experiential components in the course activity. **While the didactic portion is excellent training, it should not be recorded as a supervision activity; it should instead be included as a support activity in Item II (“Support**

Activities”) above. This may necessitate breaking the hours spent in a practicum course into intervention, supervision, and didactic activities by actual course hours. For example, if you present on the “Psychosocial Issues of HIV Infection” using examples of cases, it is a didactic activity. Similarly, Grand Rounds that consists of in-service education on specific topics would not be considered supervision for the purposes of documenting practicum hours, but would be considered a support activity.

a.	Supervised by a Licensed Psychologist:	@	@
b.	Supervised by a Licensed Allied Mental Health Professional (e.g., LMHC, social worker, psychiatrist, etc.)	@	@
c.	Other supervision (e.g., supervision provided by an advanced graduate student who is supervised by a licensed psychologist)	@	@
d.	Supervision provided by a pre-doctoral psychology intern supervised by a licensed psychologist)	@	@
e.	Hours spent in group supervision (for example, advanced practicum class time only including the hours in which you talked about cases):	@	@
f.	Hours of peer supervision/consultation and case discussion on specific cases°:	@	@
	Total Supervision Hours (add IIIa – f):	@	@

SUMMARY OF PRACTICUM HOURS

This section summarizes the total number of practicum hours described above.

a.	Total Intervention and Assessment Hours (item I):	@	@
b.	Total Support Hours (item II):	@	
c.	Total Supervision Hours (item III):	@	
	GRAND TOTAL	@	@

TEST ADMINISTRATION

Please indicate all instruments used by you in your assessment experience, excluding practice administrations to fellow students. You may include any experience you have had with these instruments such as work, research, practicum, etc., other than practice administrations. Please indicate the number of tests that you administered and scored in the first column, and the number that you administered, scored, interpreted, and wrote a report for in the second column. Please designate your experiences for the instruments listed below, without changing the sequence in which they are listed. Then, you may add as many additional lines (under "Other Tests") as needed for any other tests that you have administered.

1. ADULT TESTS

In this section, please list the tests you administered/scored. In addition, please indicate if you developed an interpretive report including the results from administration of the test.

<i>Name of Test</i>	# Administered and Scored	# Nature of report (if applicable)
---------------------	------------------------------	---------------------------------------

2. CHILD AND ADOLESCENT TESTS

In this section, please list the tests you administered/scored. In addition, please indicate if you developed an interpretive report including the results from administration of the test.

<i>Name of Test</i>	# Administered and Scored	# of Reports Written
---------------------	------------------------------	----------------------

3. INTEGRATED REPORT WRITING

How many supervised integrated psychological reports have you written for each of the following populations? An integrated report includes a history, an interview, and at least two tests from one or more of the following categories: personality assessments (objective and/or projective), intellectual assessment, cognitive assessment, and/or neuropsychological assessment. These are synthesized into a comprehensive report providing an overall picture of the patient.

- a. Adults: _____ @
- b. Children/Adolescents _____ @

I certify the above record to be accurate to the very best of my knowledge.

**BEGINNING PRACTICUM EVALUATION
BASED ON COMPETENCY BENCHMARKS IN PROFESSIONAL PSYCHOLOGY
UPDATED FALL 2016**

Supervisee's Name:

Date Evaluation Completed:

Name of Person Completing Form (please include highest degree earned):

Licensed Psychologist: Yes

Signature:

Date:

If direct supervisor is not licensed, who is the licensed supervisor under whom the supervision was offered?

Signature:

Date:

Semester:

Supervisee's Signature and Response to the Evaluation:

_____ Date:

The frequency rating for items minimally expected of beginning practicum trainees varies across items. The level of frequency rating expected for each item is indicated in **bold**. Evaluators are expected to provide elaboration in subsequent comments field about any ratings that fall below minimally expected level.

How characteristic of the trainee’s behavior is this competency description?

Not at all/Slightly Somewhat Moderately Mostly Very
 0 1 2 3 4

If you have not had the opportunity to observe a behavior in question, please indicate this by circling “No Opportunity to Observe” [N/O].

FOUNDATIONAL COMPETENCIES

I. PROFESSIONALISM

A. Professional Values and Attitudes: as evidenced in behavior and comporment that reflect the values and attitudes of psychology.						
1. Integrity - Honesty, personal responsibility and adherence to professional values						
Understands professional values; honest, responsible	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates honesty, even in difficult situations • Takes responsibility for own actions • Demonstrates ethical behavior and basic knowledge of APA Ethical Principles and Code of Conduct 						
2. Deportment						
Understands how to conduct oneself in a professional manner	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates appropriate personal hygiene and attire • Distinguishes between appropriate and inappropriate language and demeanor in professional contexts 						
3. Accountability						
Accountable and reliable	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Turns in assignments and completes documentation in accordance with established deadlines • Demonstrates personal organization skills • Plans and organizes own workload • Follows policies and procedures of institution • Follows through on commitments 						
Accepts responsibility for own actions	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Accepts responsibility for meeting deadlines • Available when “on-call” • Acknowledges errors • Utilizes supervision to strengthen effectiveness of practice 						
4. Concern for the Welfare of Others						
Demonstrates awareness of the need to uphold and protect the welfare of others	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
Acts to understand and safeguard the welfare of others	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Displays respect in interpersonal interactions with others including those from divergent perspectives or backgrounds • Determines when response to client needs takes precedence over personal needs 						

5. Professional Identity	
Demonstrates beginning understanding of self as professional; “thinking like a psychologist”	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates knowledge of the program and profession (training model, core competencies) • Demonstrates knowledge about practicing within one’s competence 	
IA. Comments About Trainee’s Professional Values and Attitudes	
<p>B. Individual and Cultural Diversity (ICD): Awareness, sensitivity and skills in working professionally with diverse individuals, groups and communities who represent various cultural and personal background and characteristics defined broadly and consistent with the UCS definition. Diversity can be broadly defined to include cultural, individual, and role differences including, but not limited to, those based on race, ethnicity, age, sexual orientation, relational status, religion, spirituality, language, nationality, citizenship status, social class, economic status, veteran status, disability and ability, gender identity and expression, body type and size, as well as diverse ideas, values, and lifestyles.</p>	
1. Self as Shaped by Context and Individual and Cultural Diversity	
Demonstrates knowledge, awareness, and understanding of one’s own dimensions of diversity and attitudes towards diverse others	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
Applies knowledge of others as cultural beings in assessment, treatment, and consultation	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates understanding that others may have multiple cultural identities • Initiates supervision about diversity issues with others 	
2. Others as Shaped by Individual and Cultural Diversity and Context	
Demonstrates knowledge, awareness, and understanding of other individuals as cultural beings	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
3. Interaction of Self and Others as Shaped by Individual and Cultural Diversity and Context	
Demonstrates knowledge, awareness, and understanding of interactions between self and diverse others	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
4. Applications based on Individual and Cultural Context	
Demonstrates basic knowledge of and sensitivity to the scientific, theoretical, and contextual issues related to ICD as they apply to professional psychology. Understands the need to consider ICD issues in all aspects of professional psychology work (e.g., assessment, treatment, research, relationships with colleagues)	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Illustrates awareness in case notes 	
IB. Comments About Trainee’s Multicultural Competence	

C. Ethical Legal Standards and Policy: Application of ethical concepts and awareness of legal issues regarding professional activities with individuals, groups, and organizations.

1. Knowledge of Ethical, Legal and Professional Standards and Guidelines

Demonstrates basic knowledge of the principles of the APA Ethical Principles and Code of Conduct [ethical practice and basic skills in ethical decision making]; demonstrates beginning level knowledge of legal and regulatory issues in the practice of psychology that apply to practice while placed at practicum setting. 0 1 2 3 4 [N/O]

- Demonstrates beginning knowledge of typical legal issues, including child and elder abuse reporting, confidentiality, and informed consent
- Identifies key documents/policies that guide the practice of psychology (e.g., APA Ethical Principles and Code of Conduct)

Demonstrates intermediate level knowledge and understanding of the APA Ethical Principles and Code of Conduct and other relevant ethical/professional codes, standards and guidelines, laws, statutes, rules, and regulations. 0 1 2 3 4 [N/O]

- Identifies ethical dilemmas effectively
- Actively consults with supervisor to act upon ethical and legal aspects of practice
- Addresses ethical and legal aspects within the case conceptualization
- Discusses ethical implications of professional work
- Recognizes and discusses limits of own ethical and legal knowledge

- Demonstrates intermediate knowledge of typical legal issues, including child and elder abuse reporting, confidentiality, and informed consent

2. Awareness and Application of Ethical Decision Making

Demonstrates awareness of the importance of applying an ethical decision model to practice 0 1 2 3 4 [N/O]

3. Ethical Conduct

Displays ethical attitudes and values 0 1 2 3 4 [N/O]

- Evidences desire to help others
- Shows honesty and integrity; values ethical behavior
- Demonstrates personal courage consistent with ethical values of psychologists
- Displays appropriate boundary management

IC. Comments About Trainee’s Ethical and Legal Standards and Policy

D. Reflective Practice/Self-Assessment/Self-Care: Practice conducted with personal and professional self-awareness and reflection; with awareness of competencies; with appropriate self-care.										
1. Reflective Practice										
Displays basic mindfulness and self-awareness; displays basic reflectivity regarding professional practice (reflection-on-action)					<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • considering own personal concerns and issues 										
<ul style="list-style-type: none"> • recognizing impact of self on others 										
<ul style="list-style-type: none"> • articulating attitudes, values, and beliefs toward diverse others 										
<ul style="list-style-type: none"> • self-identifying multiple individual and cultural identities 										
<ul style="list-style-type: none"> • systematically reviewing own professional performance with supervisors/teachers 										
2. Self-Assessment										
Demonstrates knowledge of core competencies; engages in initial self-assessment re: competencies					<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Self-assessment comes close to congruence with assessment by peers and supervisors 										
<ul style="list-style-type: none"> • Identifies areas requiring further professional growth 										
<ul style="list-style-type: none"> • Writes a personal statement of professional goals 										
<ul style="list-style-type: none"> • Identifies learning objectives for overall training plan 										
<ul style="list-style-type: none"> • Systemically and effectively reviews own professional performance via videotape or other technology 										
3. Self-Care (attention to personal health and well-being to assure effective professional functioning)										
Understands the importance of self-care in effective practice; demonstrates knowledge of self-care methods; attends to self-care					<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
4. Participation in Supervision Process										
Demonstrates straightforward, accurate, and respectful communication in supervisory relationship					<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates willingness to admit errors and accept feedback 										
<ul style="list-style-type: none"> • Acknowledges supervisor's differing viewpoints in supervision 										
Effectively participates in supervision					<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Seeks supervision to improve performance; presents work for feedback, and integrates feedback into performance 										
<ul style="list-style-type: none"> • Initiates discussion with supervisor of own reaction to client/patients in session 										
<ul style="list-style-type: none"> • Seeks supervisor's perspective on client progress 										
ID. Comments About Trainee's Reflective Practice										

II. RELATIONAL

A. Relationships: Relate effectively and meaningfully with individuals, groups, and/or communities.	
1. Interpersonal Relationships	
Displays interpersonal skills in service of maintaining productive and respectful relationships with clients, peers/colleagues, supervisors	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Listens and is empathic with others 	
<ul style="list-style-type: none"> • Respects and shows interest in others' cultures, experiences, values, points of view, goals and desires, fears, etc. 	
<ul style="list-style-type: none"> • Demonstrates interpersonal skills verbally and non-verbally 	
<ul style="list-style-type: none"> • Works cooperatively and collaboratively with peers 	
<ul style="list-style-type: none"> • Listens to and acknowledges feedback from others 	
Negotiates differences and handles conflict satisfactorily; provides effective feedback to others and receives feedback nondefensively	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Acknowledges own role in difficult interactions 	
<ul style="list-style-type: none"> • Seeks clarification in challenging interpersonal communications 	
<ul style="list-style-type: none"> • Demonstrates understanding of diverse viewpoints in challenging interactions 	
<ul style="list-style-type: none"> • Provides feedback to supervisor regarding supervisory process 	
<ul style="list-style-type: none"> • Provides feedback to peers regarding peers' clinical work in context of group supervision or case conference 	
<ul style="list-style-type: none"> • Accepts and implements supervisory feedback nondefensively 	
2. Affective Skills	
Displays affective skills and emotional maturity	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Notices and expresses feelings 	
<ul style="list-style-type: none"> • Demonstrates awareness of inner emotional experience 	
<ul style="list-style-type: none"> • Demonstrates emotional maturity 	
<ul style="list-style-type: none"> • Demonstrates affect tolerance 	
<ul style="list-style-type: none"> • Demonstrates comfort with a range of emotions 	
<ul style="list-style-type: none"> • Affect does not overwhelm judgment 	
3. Expressive Skills	
Communicates ideas, feelings, and information clearly using verbal, nonverbal, and written skills	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Written work is organized, easy to understand, and conveys the main points 	
<ul style="list-style-type: none"> • Shares opinions with others using language that others can understand 	
<ul style="list-style-type: none"> • Non-verbal behavior is consistent with verbal communications 	
IIA. Comments About Trainee's Professional Relationships	

III. SCIENCE

A. Scientific Knowledge and Methods: Understanding of research, research methodology, techniques of data collection and analysis, biological bases of behavior, cognitive-affective bases of behavior, and development across the lifespan. Respect for scientifically derived knowledge.	
1. Scientific Mindedness	
Displays critical scientific thinking	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Questions assumptions of knowledge • Presents own work for the scrutiny of others • Formulates appropriate questions regarding case conceptualization 	
2. Scientific Foundation of Psychology	
Demonstrates understanding of psychology as a science	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates understanding of core scientific conceptualizations of human behavior • Demonstrates basic knowledge of the breadth of scientific psychology • Cites scientific literature to support an argument when appropriate • Evaluates scholarly literature on a topic as needed 	
IIIA. Comments About Trainee's Scientific Knowledge	

FUNCTIONAL COMPETENCIES

IV. APPLICATION

A. Evidence-Based Practice: Integration of research and clinical expertise in the context of patient factors.	
1. Knowledge and Application of Evidence-Based Practice	
Demonstrates basic knowledge of scientific, theoretical, and contextual bases of assessment, intervention and other psychological applications; demonstrates basic knowledge of the value of evidence-based practice and its role in scientific psychology	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
B. Assessment: Assessment and diagnosis of problems, capabilities and issues associated with individuals, groups, and/or organizations.	
1. Diagnosis	
Demonstrates basic knowledge regarding the range of normal and abnormal behavior in the context of stages of human development and diversity	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
2. Conceptualization and Recommendations	
Demonstrates basic knowledge of formulating diagnosis and case conceptualization	<input type="checkbox"/> 0 <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> [N/O]
3. Communication of Assessment Findings	

Demonstrates awareness of models of report writing and progress notes	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
C. Intervention: Interventions designed to alleviate suffering and to promote health and well-being of individuals, groups, and/or organizations.						
1. Intervention planning						
Displays basic understanding of the relationship between assessment and intervention	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
2. Helping Skills						
Displays basic helping skills	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
<ul style="list-style-type: none"> • Demonstrates helping skills, such as empathic listening, framing problems • Uses non-verbal communication such as eye-contact and body positioning with clients to convey interest and concern 						
Displays clinical skills	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
<ul style="list-style-type: none"> • Develops rapport with clients • Develops therapeutic relationships • Demonstrates appropriate judgment about when to consult supervisor 						
3. Intervention Implementation						
Demonstrates basic knowledge of intervention strategies	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
4. Progress Evaluation						
Demonstrates basic knowledge of the assessment of intervention progress and outcome	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
Comments about Trainee's Knowledge of and Application of Evidence-based Practice						

V. EDUCATION

A. Supervision: Supervision and training in the professional knowledge base of enhancing and monitoring the professional functioning of others.						
1. Expectations and Roles						
Demonstrates basic knowledge of expectations for supervision	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
Demonstrates knowledge of, purpose for, and roles in supervision	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
<ul style="list-style-type: none"> • Demonstrates understanding of supervisor and supervisee roles in relation to client • Demonstrates understanding of vicarious liability of the supervisor 						
2. Skills Development						
Displays interpersonal skills of communication and openness to feedback	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]
Provides helpful supervisory input in peer and group supervision	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> [N/O]

Comments About Trainee's Response to Training

VI. SYSTEMS

A. Interdisciplinary Systems: Knowledge of key issues and concepts in related disciplines. Identify and interact with professionals in multiple disciplines.						
1. Functioning in Multidisciplinary and Interdisciplinary Contexts						
Cooperates with others	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
2. Respectful and Productive Relationships with Individuals from Other Professions						
Demonstrates awareness of the benefits of forming collaborative relationships with other professionals	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
B. Management-Administration: Manage the direct delivery of services (DDS) and/or the administration of organizations, programs, or agencies (OPA).						
1. Administration						
Complies with regulations	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
Demonstrates knowledge of and ability to effectively function within professional settings and organizations, including compliance with policies and procedures.	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
C. Advocacy: Actions targeting the impact of social, political, economic or cultural factors to promote change at the individual (client), institutional, and/or systems level.						
1. Empowerment						
Demonstrates awareness of social, political, economic and cultural factors that impact individuals, institutions and systems, in addition to other factors that may lead them to seek intervention	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>
2. Systems Change						
Understands the differences between individual and institutional level interventions and system's level change	<input type="checkbox"/> 0 [N/O]	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/>

Training Level of Person Being Assessed: Year in Doctoral Program:

Rate each item by responding to the following question using the scale below:

How characteristic of the trainee’s behavior is this competency description?

Not at All/Slightly Somewhat Moderately Mostly Very
 0 1 2 3 4

If you have not had the opportunity to observe a behavior in question, please indicate this by circling “No Opportunity to Observe” [N/O].

Near the end of the rating form, you will have the opportunity to provide a narrative evaluation of the trainee’s current level of competence.

FOUNDATIONAL COMPETENCIES

I. PROFESSIONALISM

1. Professionalism: as evidenced in behavior and comporment that reflect the values and attitudes of psychology.						
1A. Integrity - Honesty, personal responsibility and adherence to professional values						
Adherence to professional values infuses work as psychologist-in-training; recognizes situations that challenge adherence to professional values	0	1	2	3	4	[N/O]
1B. Deportment						
Communication and physical conduct (including attire) is professionally appropriate, across different settings	0	1	2	3	4	[N/O]
1C. Accountability						
Accepts responsibility for own actions	0	1	2	3	4	[N/O]
1D. Concern for the welfare of others						
Acts to understand and safeguard the welfare of others	0	1	2	3	4	[N/O]
11E. Professional Identity						
Displays emerging professional identity as psychologist; uses resources (e.g., supervision, literature) for professional development	0	1	2	3	4	[N/O]
2. Individual and Cultural Diversity: Awareness, sensitivity and skills in working professionally with diverse individuals, groups and communities who represent various cultural and personal background and characteristics defined broadly and consistent with APA policy.						
2A. Self as Shaped by Individual and Cultural Diversity (e.g., cultural, individual, and role differences, including those based on age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, language, and socioeconomic status) and Context						
Monitors and applies knowledge of self as a cultural being in assessment, treatment, and consultation	0	1	2	3	4	[N/O]

Not at All/Slightly = 0 Somewhat = 1 Moderately = 2 Mostly = 3 Very = 4 No Opp. = [N/O]

2B. Others as Shaped by Individual and Cultural Diversity and Context						
Applies knowledge of others as cultural beings in assessment, treatment, and consultation	0	1	2	3	4	[N/O]
2C. Interaction of Self and Others as Shaped by Individual and Cultural Diversity and Context						
Applies knowledge of the role of culture in interactions in assessment, treatment, and consultation of diverse others	0	1	2	3	4	[N/O]
2D. Applications based on Individual and Cultural Context						
Applies knowledge, sensitivity, and understanding regarding ICD issues to work effectively with diverse others in assessment, treatment, and consultation	0	1	2	3	4	[N/O]
3. Ethical Legal Standards and Policy: Application of ethical concepts and awareness of legal issues regarding professional activities with individuals, groups, and organizations.						
3A. Knowledge of Ethical, Legal and Professional Standards and Guidelines						
Demonstrates intermediate level knowledge and understanding of the APA Ethical Principles and Code of Conduct and other relevant ethical/professional codes, standards and guidelines, laws, statutes, rules, and regulations	0	1	2	3	4	[N/O]
3B. Awareness and Application of Ethical Decision Making						
Demonstrates knowledge and application of an ethical decision-making model; applies relevant elements of ethical decision making to a dilemma	0	1	2	3	4	[N/O]
3C. Ethical Conduct						
Integrates own moral principles/ethical values in professional conduct	0	1	2	3	4	[N/O]
4. Reflective Practice/Self-Assessment/Self-Care: Practice conducted with personal and professional self-awareness and reflection; with awareness of competencies; with appropriate self-care.						
4A. Reflective Practice						
Displays broadened self-awareness; utilizes self-monitoring; displays reflectivity regarding professional practice (reflection-on-action); uses resources to enhance reflectivity; demonstrates elements of reflection-in-action	0	1	2	3	4	[N/O]
4B. Self-Assessment						
Demonstrates broad, accurate self-assessment of competence; consistently monitors and evaluates practice activities; works to recognize limits of knowledge/skills, and to seek means to enhance knowledge/skills	0	1	2	3	4	[N/O]
4C. Self-Care (attention to personal health and well-being to assure effective professional functioning)						
Monitors issues related to self-care with supervisor; understands the central role of self-care to effective practice	0	1	2	3	4	[N/O]
4D. Participation in Supervision Process						
Effectively participates in supervision	0	1	2	3	4	[N/O]

Not at All/Slightly = 0 Somewhat = 1 Moderately = 2 Mostly = 3 Very = 4 No Opp. = [N/O]

II. RELATIONAL

5. Relationships: Relate effectively and meaningfully with individuals, groups, and/or communities.						
5A. Interpersonal Relationships						
Forms and maintains productive and respectful relationships with clients, peers/colleagues, supervisors and professionals from other disciplines	0	1	2	3	4	[N/O]
5B. Affective Skills						
Negotiates differences and handles conflict satisfactorily; provides effective feedback to others and receives feedback nondefensively	0	1	2	3	4	[N/O]
5C. Expressive Skills						
Communicates clearly using verbal, nonverbal, and written skills in a professional context; demonstrates clear understanding and use of professional language	0	1	2	3	4	[N/O]

III. SCIENCE

6. Scientific Knowledge and Methods: Understanding of research, research methodology, techniques of data collection and analysis, biological bases of behavior, cognitive-affective bases of behavior, and development across the lifespan. Respect for scientifically derived knowledge.						
6A. Scientific Mindedness						
Values and applies scientific methods to professional practice	0	1	2	3	4	[N/O]
6B. Scientific Foundation of Psychology						
Demonstrates intermediate level knowledge of core science (i.e., scientific bases of behavior)	0	1	2	3	4	[N/O]
6C. Scientific Foundation of Professional Practice						
Demonstrates knowledge, understanding, and application of the concept of evidence-based practice	0	1	2	3	4	[N/O]
7. Research/Evaluation: Generating research that contributes to the professional knowledge base and/or evaluates the effectiveness of various professional activities.						
7A. Scientific Approach to Knowledge Generation						
Demonstrates development of skills and habits in seeking, applying, and evaluating theoretical and research knowledge relevant to the practice of psychology	0	1	2	3	4	[N/O]
7B. Application of Scientific Method to Practice						
Demonstrates knowledge of application of scientific methods to evaluating practices, interventions, and programs	0	1	2	3	4	[N/O]

Not at All/Slightly = 0 Somewhat = 1 Moderately = 2 Mostly = 3 Very = 4 No Opp. = [N/O]

FUNCTIONAL COMPETENCIES

IV. APPLICATION

8. Evidence-Based Practice: Integration of research and clinical expertise in the context of patient factors.						
8A. Knowledge and Application of Evidence-Based Practice						
Applies knowledge of evidence-based practice, including empirical bases of assessment, intervention, and other psychological applications, clinical expertise, and client preferences	0	1	2	3	4	[N/O]
9. Assessment: Assessment and diagnosis of problems, capabilities and issues associated with individuals, groups, and/or organizations.						
9A. Knowledge of Measurement and Psychometrics						
Selects assessment measures with attention to issues of reliability and validity	0	1	2	3	4	[N/O]
9B. Knowledge of Assessment Methods						
Demonstrates awareness of the strengths and limitations of administration, scoring and interpretation of traditional assessment measures as well as related technological advances	0	1	2	3	4	[N/O]
9C. Application of Assessment Methods						
Selects appropriate assessment measures to answer diagnostic question	0	1	2	3	4	[N/O]
9D. Diagnosis						
Applies concepts of normal/abnormal behavior to case formulation and diagnosis in the context of stages of human development and diversity	0	1	2	3	4	[N/O]
9E. Conceptualization and Recommendations						
Utilizes systematic approaches of gathering data to inform clinical decision-making	0	1	2	3	4	[N/O]
9F. Communication of Assessment Findings						
Writes adequate assessment reports and progress notes and communicates assessment findings verbally to client	0	1	2	3	4	[N/O]
10. Intervention: Interventions designed to alleviate suffering and to promote health and well-being of individuals, groups, and/or organizations.						
10A. Intervention planning						
Formulates and conceptualizes cases and plans interventions utilizing at least one consistent theoretical orientation	0	1	2	3	4	[N/O]
10B. Skills						
Displays clinical skills	0	1	2	3	4	[N/O]
10C. Intervention Implementation						
Implements evidence-based interventions	0	1	2	3	4	[N/O]
10D. Progress Evaluation						
Evaluates treatment progress and modifies treatment planning as indicated, utilizing established outcome measures	0	1	2	3	4	[N/O]

Not at All/Slightly = 0 Somewhat = 1 Moderately = 2 Mostly = 3 Very = 4 No Opp. = [N/O]

11. Consultation: The ability to provide expert guidance or professional assistance in response to a client's needs or goals.						
11A. Role of Consultant						
Demonstrates knowledge of the consultant's role and its unique features as distinguished from other professional roles (such as therapist, supervisor, teacher)	0	1	2	3	4	[N/O]
11B. Addressing Referral Question						
Demonstrates knowledge of and ability to select appropriate means of assessment to answer referral questions	0	1	2	3	4	[N/O]
11C. Communication of Consultation Findings						
Identifies literature and knowledge about process of informing consultee of assessment findings	0	1	2	3	4	[N/O]
11D. Application of Consultation Methods						
Identifies literature relevant to consultation methods (assessment and intervention) within systems, clients, or settings	0	1	2	3	4	[N/O]

V. EDUCATION

12. Teaching: Providing instruction, disseminating knowledge, and evaluating acquisition of knowledge and skill in professional psychology.						
12A. Knowledge						
Demonstrates awareness of theories of learning and how they impact teaching	0	1	2	3	4	[N/O]
12B. Skills						
Demonstrates knowledge of application of teaching methods	0	1	2	3	4	[N/O]
13. Supervision: Supervision and training in the professional knowledge base of enhancing and monitoring the professional functioning of others.						
13A. Expectations and Roles						
Demonstrates knowledge of, purpose for, and roles in supervision	0	1	2	3	4	[N/O]
13B. Processes and Procedures						
Identifies and tracks progress achieving the goals and tasks of supervision; demonstrates basic knowledge of supervision models and practices	0	1	2	3	4	[N/O]
13C. Skills Development						
Demonstrates knowledge of the supervision literature and how clinicians develop to be skilled professionals	0	1	2	3	4	[N/O]
13D. Supervisory Practices						
Provides helpful supervisory input in peer and group supervision	0	1	2	3	4	[N/O]

VI. SYSTEMS

Not at All/Slightly = 0 Somewhat = 1 Moderately = 2 Mostly= 3 Very = 4 No Opp. = [N/O]

14. Interdisciplinary Systems: Knowledge of key issues and concepts in related disciplines. Identify and interact with professionals in multiple disciplines.						
14A. Knowledge of the Shared and Distinctive Contributions of Other Professions						
Demonstrates beginning, basic knowledge of the viewpoints and contributions of other professions/professionals	0	1	2	3	4	[N/O]
14B. Functioning in Multidisciplinary and Interdisciplinary Contexts						
Demonstrates beginning knowledge of strategies that promote interdisciplinary collaboration vs. multidisciplinary functioning	0	1	2	3	4	[N/O]
14C. Understands how Participation in Interdisciplinary Collaboration/Consultation Enhances Outcomes						
Demonstrates knowledge of how participating in interdisciplinary collaboration/consultation can be directed toward shared goals	0	1	2	3	4	[N/O]
14D. Respectful and Productive Relationships with Individuals from Other Professions						
Develops and maintains collaborative relationships and respect for other professionals	0	1	2	3	4	[N/O]
15. Management-Administration: Manage the direct delivery of services (DDS) and/or the administration of organizations, programs, or agencies (OPA).						
15A. Appraisal of Management and Leadership						
Forms autonomous judgment of organization's management and leadership	0	1	2	3	4	[N/O]
15B. Management						
Demonstrates awareness of roles of management in organizations	0	1	2	3	4	[N/O]
15C. Administration						
Demonstrates knowledge of and ability to effectively function within professional settings and organizations, including compliance with policies and procedures	0	1	2	3	4	[N/O]
16. Advocacy: Actions targeting the impact of social, political, economic or cultural factors to promote change at the individual (client), institutional, and/or systems level.						
16A. Empowerment						
Uses awareness of the social, political, economic or cultural factors that may impact human development in the context of service provision	0	1	2	3	4	[N/O]
16B. Systems Change						
Promotes change to enhance the functioning of individuals	0	1	2	3	4	[N/O]

Overall Assessment of Trainee’s Current Level of Competence

Please provide a brief narrative summary of your overall impression of this trainee’s current level of competence. In your narrative, please be sure to address the following questions:

- What are the trainee’s particular strengths and weaknesses?
- Do you believe that the trainee has reached the level of competence expected by the program at this point in training?
- If applicable, is the trainee ready to move to the next level of training, or independent practice?

C. Comprehensive Exams

Students demonstrate their learning and development through their comprehensive examination. When students complete all required coursework and pass their comprehensive examinations, they advance to doctoral candidacy. The comprehensive examination (comps) process outlines expectations in the areas of research, practice, and professional development. Part of the exam is to present and defend to the faculty.

1. Student Qualifications:

- a. The student's advisor will determine student readiness for oral defense of the student's comprehensive exams based on the following criteria:
 1. The student has completed all required coursework or is set to complete all coursework in the semester they are taking their comprehensive exam
 2. The student has **independently** prepared the written materials for the comprehensive exam (because the materials are largely reflective, the student prepares the written materials without assistance of the advisor).
 3. If a student is enrolled in coursework during the semester they take comprehensive exams, they must receive a B or better in all courses to advance to candidacy. In this case, the chair will hold their signature on comprehensive exam result until grades have been posted.
- b. If a student wishes to defend their comprehensive exams without having satisfied the criteria listed above, he or she may petition for a waiver of that requirement.
- c. The student's advisor will be responsible for approving the composition of the portfolio committee, which must have at least four faculty members and constituted as follows:

Chair or co-chair – Counseling Psychology faculty advisor and three additional faculty members. At least two of these additional members must be Counseling Psychology faculty. If the additional two members are not Counseling Psychology faculty, one must be a departmental faculty member. Students select all members in consultation with their advisor.

- d. A minor is not required but a student may pursue a minor if desired.

2. Composition of the Comprehensive Exam and Oral Defense:

- a. The comprehensive examination consists of providing the committee an electronic copy of the documents for review.
- b. Students turn in the documents for the comprehensive exam to the committee at least 2 weeks before the date of the defense (not counting winter or spring break).

- c. During the meeting, the student will present one case study and their research process for article 1 of their dissertation and discuss plans for article 2. They will take questions from the committee on any aspect of their written or oral materials.
- d. Students will likely have some revisions to make to the comprehensive exam (either written or oral).
- e. Other possible topics to be covered in the comprehensive exam oral defense are as follows: Major professional issues in the field of psychology and counseling psychology, ethical practice, history of counseling psychology, practice issues, professional identity, community engagement, etc.
- f. Questions in the above area will span individual counseling, group counseling, vocational counseling, and multicultural counseling; assessment; and consultation.
- g. It should be emphasized that the above list of possible topics is only meant to serve as a guide and is not exhaustive. Students are expected to have a comprehensive and current knowledge within the field of counseling psychology.

Questions for the Counseling Psychology comprehensive exam oral defense will be generated by the CP faculty. Students are advised to consult with their advisor concerning their preparation for the comprehensive exam process.

Students must successfully defend their comps **before or during** the Spring semester before they intend to apply for internship. The end of the semester is the final day of regular instruction for the Spring semester (last day of finals week). There are no summer comps defenses. Successful defense of the comprehensive exams means that the student receives a “Satisfactory” without any qualifications or contingencies. If the student receives a “Satisfactory with Reservations,” the student must successfully complete the contingencies (i.e., rewrite a paper, write another paper, meet with faculty, etc.) required by their committee before the last day of the spring semester before they apply for internship. If the student cannot complete these required changes and contingencies, the faculty will not approve the student for internship and he/she will not be able to apply for internship.

Students who defend their comprehensive exams must successfully defend within the same semester (Fall or Spring). The final date for the end of the semester typically is the last day of finals week. If the student does not defend comps by the end of the semester, the student must re-defend the comprehensive exams in another semester.

3. Evaluation of the Comprehensive Exam

- a. The student's committee members will read the student's comprehensive exam written materials. The criteria for evaluation of responses include the following and are consistent with APA's competency benchmarks:
 - 1. Professionalism
 - 2. Relational

3. Science
 4. Application
- b. The oral examination is a part of the comps defense. The function of the oral examination is to allow the student's committee to determine his or her competence across a variety of areas. As is stated in the Manual of Rules and Regulations of the Graduate College, it is “intended to evaluate the candidate's formal preparation...” The purpose of this examination, therefore, is not to allow students a “second chance” to respond adequately to the questions presented in the written comprehensive examination. As noted above, all domains of counseling psychology may be covered by questions from the student's committee during the oral examination period, which typically lasts about two hours.
 - c. The final evaluation of the comprehensive exams, both written and oral portions, occurs after the oral examination. This evaluation will be conducted according to the rules and regulations of the Graduate College as follows:
 1. The comps defense will be evaluated by a convened meeting of the committee and reported as satisfactory, satisfactory with reservations, or unsatisfactory to the Graduate College within fourteen days after the completion of the examination. Two “unsatisfactory” votes will make the committee report unsatisfactory.
 2. In the event of a report with two or more votes of “satisfactory with reservations,” the exact stipulations of the committee should be recorded with the report form. If the stipulations involve further examination in a particular area of study, the statement should be specific in defining the area, in requiring additional courses or other procedures, and in specifying the time and method of satisfying the stipulation. The executive of the major department should promptly send a written report to the Graduate College giving date of removal of "reservations".
 3. In case of a report of unsatisfactory on the comps oral defense, the committee may grant the candidate permission to present themselves for reexamination not sooner than four months after the first examination. The examination may be repeated only once, at the option of the department.
 - d. Students will be evaluated based on the comps evaluation form provided in this manual. They will prepare their written and oral defense materials for the comprehensive committee to review independently. These materials are to reflect on the students’ clinical work and their process of conducting research. Since this is the students’ own experience, advisors will largely play a logistical role in helping the student prepare for the comprehensive examination and will not review materials prior to the defense.
 - e. **Written Material Evaluation:** The student’s comprehensive examination committee will be required to complete the evaluation rubric form on the written materials prior to the oral defense. The committee members will return the forms to their advisor three days prior to the defense so that the advisor can compile the scores and comments.
 - f. The comprehensive examination oral defense will include the following:

- a. The student's advisor will lead the committee in a discussion of the written scores and strengths and weaknesses of the written materials. The committee will excuse the student during this discussion.
- b. The student will make a case presentation (no more than 20 minutes) and will be asked questions about the presentation and provided a chance to address any weaknesses identified by the committee in the written materials.
- c. The student will be asked to make a presentation on the research component (no more than 15 minutes) and will be given a chance to address the weaknesses identified by the committee in the written materials.
- d. After the research component, the student's advisor will open the meeting for further questions addressing community engagement and counseling psychology issues more broadly.
- e. The student will be excused, and the committee will discuss scores for the oral examination components.
- f. The committee will together discuss the overall rating for the oral and written components (satisfactory, satisfactory with reservations, unsatisfactory) and any reservations and feedback to provide the student for remediation, if necessary.
- g. The student will rejoin the group and the committee will discuss the comprehensive examination result and provide the student direct feedback for remediation.
- h. The student will need to remediate any reservations by the end of the semester in which the oral defense is scheduled.

4. Comprehensive Exam Requirements

These written/oral examination requirements serve as the comprehensive examination process for the University of Iowa's Counseling Psychology doctoral program. A student must successfully complete the comprehensive examination by the end of the spring semester before applying for internship in the fall. Successful completion means no outstanding reservations and the committee has agreed that the student has successfully passed the written and oral examination. The successful completion of the comprehensive examination process results in a doctoral student advancing to candidacy. The following details the requirements for this process:

Doctoral students will work with their advisors to determine the appropriate semester to fulfill the written and oral examination requirements. This will be no earlier than the third year of the students' doctoral program when all of the core psychology and counseling psychology course requirements are completed (students can be enrolled in one core or counseling psychology course in the semester they take comprehensive exams).

The documents will include the following written requirements submitted to the committee no later than two weeks before the scheduled oral examination date (oral defense). The student will submit this to the committee electronically.

Clinical Component (Written)

A written clinical case study of a client with whom the student has worked while enrolled as a practicum student in the counseling psychology doctoral program is required and will consist of the following components:

Case study paper (max page 30 not including references; APA style)

Client Background. This should be no longer than one paragraph to describe the relevant characteristics of the client, their context, and referral question/goals for treatment.

Theoretical Orientation. Discuss your theoretical approach to working with the client.

Empirical Evidence. Describe the research evidence that supports the student's approach to working with the client.

Conceptualization and Treatment. Discuss how you conceptualized the presenting problem and course of treatment or assessment according to your theoretical orientation or assessment framework. Use information from sessions to describe how therapy/assessment progressed and how you utilized techniques as informed by your theoretical orientation or assessment framework.

Ethics. Discuss the relevant ethical issues and standards that were germane to the case. Ethical concerns apply to all cases whether there was a relevant ethical dilemma or not.

Diversity. Diversity issues include intersectionality of identities of both the client and the practicum student therapist that are relevant to the case. Discuss how you navigated differences with the client and describe ways in which you were challenged to become more culturally competent through your work. You should also review relevant research that informs your work with this client from a multicultural and diverse perspective.

Work as a Life Domain. Work is a universally important issue and has relevance for all clients. Integrate the relevant work issues for the client. This should be appropriate to the developmental stage of life of the client.

Assessment. There will be cases where no formal testing (IQ, career, or personality assessment) was performed. However, we encourage students to think about the broader range of assessment that takes place over the course of work with a client. Thus, this section should include intake information, diagnostic assessment (how did you make your diagnosis), outcome monitoring, etc. In cases where formal testing was performed, this must also be included.

Self-Reflection. Discuss the important learning experiences from this case. What were the biggest challenges/successes? In what ways was your theoretical orientation effective and/or insufficient? Discuss how you utilized supervision and how supervision informed your work with this client.

Note: This written case study should not be a session by session description of the therapy or assessment process but should be an integrated discussion that reflects the student's therapeutic approach informed by scholarship, self-awareness, and training.

Clinical Component (Oral)

During the oral examination, students will be required to present (20 minutes) based on their written case. Students will be expected to answer questions about the case and to defend their approach. In the oral examination, students will be expected to discuss ethical decision making related to the case. If no ethical dilemma arose during this case, faculty will create hypothetical

situations that could have arisen with the case and ask the student to discuss their decision making around these scenarios.

Research Component (Written)

The research component of the comprehensive exams will be illustrative of the student's process of research and will consist of the following components:

1. Research Case Study Paper (max page limit 10 pages). This is a written research case study of your process of working on your research seminar project (article 1 of the two-article dissertation model) is required. The paper will include:

A. Topic Development. Discuss how you decided to research a particular topic. Why were you interested in this topic?

B. Development of research process (applicable to students whose first paper is a research project)

Research Questions Development. Describe the process of developing the research questions for your research project. How did you decide what you wanted to know? What literature or resources were most helpful?

Methodology Chosen. Describe how you chose the methods for the research project. For example, discuss why you decided on qualitative or quantitative methods. Describe the tools you used to gather the data and the decision to use those tools.

Findings. Very briefly discuss your findings. Since the article or manuscript will be included as part of the research component, you do not need to reiterate findings, as much as discuss how you made sense of the findings.

C. Development of paper process (applicable to students whose first paper is a theoretical and/or research review)

Research review. How did you decide what research to include in your paper? How did you evaluate quality?

Unique contribution. What about this paper makes it a unique contribution to the literature? How does this paper guide you and other researchers toward future studies and/or ideas?

D. Publication Process

Writing. Discuss your strengths and challenges related to the writing process.

Editorial Process. Discuss the process of submitting your manuscript for publication including choosing a journal, submission process, receiving a decision, and revising your manuscript, or if you received a rejection-choosing a new outlet. For example, discuss feedback you received from the review process and how you handled the feedback.

E. Article/ Manuscript and Feedback. Include copies of the article or manuscript and all reviewer and editorial comments received to date, including decisions on the manuscript.

The manuscript used for article one of the dissertation process cannot be from a class where the course requirement was to submit the paper for publication.

Research Component (Oral)

During the oral examination, students will be required to present an overview of their research process related to their research seminar project. Students will be expected to answer questions about their approach and to defend their decision-making.

Community Engagement Component (Written)

Students will write a short essay (500 words) about their approach to diversity from a multicultural, community-engaged perspective. This essay simulates the “multicultural” essay for internship applications. The student will use the lens of community engagement (defined in the handbook and learned through the program) to discuss their views of diversity.

Community Engagement Component (Oral)

During the oral defense, students will be expected to discuss this component with faculty and articulate their ideas about community engagement and their identity as a multicultural therapist-in-training.

GRADING RUBRIC FOR COMPREHENSIVE EXAMINATIONS

Each committee member will independently rate the written component of comprehensive examination. The oral will be graded after the student presentation component. The student will be rated on items using the following using the following scale:

3= Pass (student has met competency in area)

2=Pass with reservations (modifications are required to components of the comprehensive exam)

1=No pass

Case Study Written Component

Item	Rating	Comment
1. Provided enough information to understand the client/s' contextual and cultural background.		
2. Demonstrated an understanding of how these identities influence treatment objectives.		
3. Demonstrated knowledge of theoretical concepts specific to chosen theoretical orientation.		
4. Case plan and interventions described were consistent with theoretical orientation.		
5. Demonstrated understanding and knowledge of evidence base related to theoretical orientation and interventions used with client/s.		
6. Demonstrated intermediate level knowledge and understanding of APA ethical principles and code of conduct.		
7. Applied relevant ethical principles to the case.		
8. Demonstrated an understanding of how work issues influence the client and integrated this into the discussion of client issues.		
9. Demonstrated an understanding of assessment tools used to diagnose client issues.		
10. Demonstrated an understanding of the importance of the use of diagnosis in treatment planning.		
11. Demonstrated accurate self- assessment of competence and ability to accurately recognize strengths and weaknesses of therapeutic process and approach.		
12. Demonstrated appropriate use of supervision in treatment approach and self-reflection.		

Case Study Oral Component

Item	Rating	Comment
1. Articulated client background and how cultural and contextual issues influenced therapeutic approach.		
2. Articulated theoretical orientation and explained relevant concepts.		
3. Articulated how theoretical concepts were relevant to case.		
4. Articulated relevant ethical issues relevant to the case.		
5. Articulated an understanding of the ethical guidelines, laws, regulations were relevant to the specific case.		
6. Articulated self-reflective process and use of supervision.		
7. Demonstrated an ability to answer relevant questions about the case and to defend treatment approach.		

Research Component

Research Component Written Component

Item	Rating	Comment
1. Clearly articulate interest in topic		
2. Adequately described literature and research to justify research project or topic.		
3. Adequately described appropriate method for study and decision to use particular methodology.		
4. Described the importance and implications of the findings.		
5. Described the publication process including: <ol style="list-style-type: none"> a. Reason to submit to chosen journal b. How the manuscript was revised c. Feedback that was given and how it was incorporated into revision process 		

Research Component Oral

Item	Rating	Comment
1. Articulated a thoughtful summary of development of interest in subject.		
2. Able to critique existing literature and use to describe need for study/review.		
3. Able to clearly articulate methodology and research process.		
4. Demonstrate knowledge of study strengths and weaknesses.		
5. Articulated how this article/manuscript informs dissertation article two.		
6. Able to critique existing literature and use to describe need for study/review.		

Community Engagement**Community Engagement**

Item	Rating	Comment
1. Describes personal perspective on community engagement.		
2. Demonstrate understanding of connection of community engagement to psychological practice and research.		

D. Dissertation Requirements

To fulfill the dissertation requirement, the counseling psychology program requires a two-dissertation article format.

1. **Guidelines:** Policies and procedures for dissertation are governed by the Graduate College. Refer to the Manual of Rules and Regulations of the Graduate College for an explanation of these procedures.

2. Composition of Dissertation Committee:

Composition of the dissertation committee: Chair or co-chair, Counseling Psychology faculty member; either two additional counseling psychology faculty members or one counseling psychology faculty member and one departmental (Psych and Quant) faculty member; one faculty member from outside the department; one other faculty member. Except for the Chairperson and the outside member, any member may be a non-tenure-track individual who has been approved to be on the committee by the Graduate College. Therefore, at least four of the faculty members must be members of the UI tenure-track faculty, and only ONE member of the committee may be a non-tenure track individual.

- a. Two Counseling Psychology Faculty members, one of whom chairs or co-chairs the committee.
 - b. One Counseling Psychology faculty member OR one departmental (Psych. and Quantitative Foundations) faculty member
 - c. At least one tenure track faculty member from outside the counseling psychology program.
 - d. One other faculty member.
3. All necessary forms are available in the Office of Student Services, located on the third floor of Lindquist Center.
 4. Timing of Dissertation Defense
 - a. Copies of the dissertation must be submitted for the committee member's review at least 2 weeks before the date of the defense. Students should check with committee members as to the format they would like to have when reviewing the dissertation (i.e., hardcopy, word-attachment).
 - c. Students may defend their dissertation the spring semester prior to going on internship if their dissertation is completed.

3. Article One and Article Two Format

The first article in the two-dissertation format will be the result of a first year research seminar project developed in collaboration with your advisor. Your advisor will need to approve your project; it is highly recommended students discuss their ideas with their advisor early in the process. The first manuscript can be either conceptual or empirical in nature and cannot be a manuscript submitted for publication through a course requirement. Article one is expected to be submitted for publication at least by the semester prior to sitting for comprehensive exams and ideally by the end of the student's second year.

Article two also will be developed in collaboration with the student's research advisor with the student as lead author and responsible for the majority of the work. This article must be empirical (data driven). The literature review and research methods must be approved by the student's dissertation committee through convening of a proposal defense meeting prior to undertaking the research study. Committee members must also approve of the student's project prior to applying for internship. The composition of the committee shall satisfy the requirements of the final dissertation committee set forth by the University of Iowa Graduate College. Students in the program are required to have a proposal defense of their dissertation. The student must successfully defend the proposal before being cleared by the faculty to apply for internship. Typically, this means that students must have their proposal defended by August 31st of any academic year. Successful defense of the proposal means that the student's committee agrees that the student may proceed with the study. In some cases, the committee may wish for the student to make changes to the proposal. The student's advisor and dissertation committee members must approve all changes prior to the student being approved for internship the fall in which they are applying. No dissertation proposal meetings are scheduled in the summer term. The proposal will include: APA article style (journal formatted-specific to journal style) introduction with proposed methods. Students should work with their advisor on the journal for submission prior to sending the proposal to the committee. The proposal should be sent to the committee no later than two weeks before the proposal meeting and should include the name and author instructions for the targeted journal.

Oral Defense

Oral defense of articles one and two (per graduate school rules) is required. Two weeks prior to the oral defense date, the following must be submitted:

Chapter 1: Introduction/Literature Review

Chapter 2: Method

Chapter 3: Results

Chapter 4: Discussion

The student (with guidance from the committee) will identify appropriate publication outlet(s) for article two. However, the dissertation must be submitted in Graduate College dissertation form to the committee for the formal defense. Advisor/advisee will determine how and when to publish Article 2. Advisors may wish to withhold their signatures of completion of the dissertation until the article is submitted for publication.

Oral Dissertation defense is scheduled for two hours (per graduate college requirements) and will include a formal presentation (no more than 15 minutes) of chapters 1 through 4, with emphasis on chapters 1, 3, and 4 followed by student response to questions from committee.

E. Internship

Guidelines. Students spend a calendar year at an internship center approved by the Counseling Psychology faculty. All APA accredited internships are considered approved, and students in most cases are expected to apply to these sites. Internships currently on probation from APA or not accredited by APA must be approved by the faculty prior to application. Students may plan a full-time internship or may spend two years in half-time internships.

1. Students must be approved by the faculty as ready to apply for internship based on the following criteria:
 - a. Completion of all required coursework
 - b. Successful completion of the comprehensive examination requirement
 - c. Successful completion of practicum requirements
 - d. Overall progress in the program
 - e. Successful defense of their dissertation proposal (prospectus) prior to the date of internship approval by the faculty (typically at the first faculty meeting of the fall term).

An application form, which is available from the coordinator of internship, must be completed by the student and submitted to the Counseling Psychology Faculty for review. Students should submit this form by the first faculty meeting of the year. The faculty will review the student's application and inform the student of its decision after the meeting.

When the internship has been selected in February, the student should notify the coordinator of internship in writing of the official beginning and ending dates of the internship. The coordinator will verify these with the internship training director.

A student may graduate if and only if the official ending date of the internship is prior to the graduation date, and the program has received all materials specified in the internship completion form prior to release for graduation. The coordinator of internship will release a student for graduation. An internship completion form will be completed by the coordinator and placed in the student's permanent file prior to release for graduation.

Note that students who successfully defend the dissertation cannot officially graduate until after the internship completion form is filed with the coordinator of internship. If a student's internship officially ends before or on the day of summer commencement (the day

may vary in any given summer session), the program will work with the internship to help the students graduate during the summer. That would entail completion of paperwork, dissertation, and any other forms and materials needed for graduation. It is the responsibility of the student to make sure their dissertation is completed and filed with the Graduate College. However, if the official end date of the student's internship is after the day required to be released for summer graduation, the student cannot expect to apply for summer graduation. That is, even if the student ends internship because of saved vacation days, for instance, if the official end date of the internship falls after the day of summer graduation for any given summer semester, the student will not graduate in the summer.

Coordinator of Internship,
Counseling Psychology Program

F. Waiver Procedure

1. Procedures for student requests for waivers:

Type I: Students who request a waiver of a curriculum requirement based on previous equivalent graduate coursework.

This waiver should be handled by each advisor in collaboration with the course instructor for the course the student is petitioning to waive. The advisor has the obligation to evaluate prior graduate work and the authority to grant equivalency. Such decisions remain binding regardless of whether the student may later select a different advisor.

b. Type II: Students who request a waiver of a curricular requirement based on extra-curricular experiences, prior undergraduate coursework, etc.

This type of request is evaluated by the entire CP faculty. In this case, students must transmit the request in writing to the CP faculty through their advisor. This memo should specify the nature of the request, supporting evidence, and alternative proposals. The request will be considered at a meeting of the CP faculty and will be either approved or disapproved by majority vote.

Courses able to be waived include: Psychopathology across the Lifespan, Work Psychology, and Advanced Group Leadership Experience.

WAIVER FORM

Please consult the waiver policy in the Student Handbook prior to submitting this form to the Coordinator.

Please use one form for each course for which a waiver is requested; submit two copies of the form to the Coordinator for signature and the Coordinator will place one into the student's file.

Student's name: _____

Course number: _____

Course name: _____

Prior equivalent course:

number:

name:

institution:

instructor:

Date: _____

Coordinator: _____

Date: _____

Equivalent experience/coursework (if Type II waiver):

III. Evaluation of Student Progress

A. Evaluation Guidelines

I. End-of-year review

- A. The coordinator will notify the students of the date of the yearly review meeting. This meeting will occur during the academic year or the early summer.
- B. The student and his or her advisor will meet prior to the review meeting if there are significant problems to discuss.

Specific criteria areas:

1. Progress in completion of required coursework;
 2. Progress in completion of comprehensive exam requirements;
 3. Progress in completion of research;
 4. Achievement in course work (minimum grade point average across all courses of 3.0);
 5. Achievement in practica; and
 6. Achievement in related areas (e.g., presenting a paper at convention, selection as graduate assistant);
 7. When appropriate, meeting contract specifications;
- C. The student will schedule a meeting during the yearly review period to meet with the entire faculty. At faculty discretion, this annual review meeting may occur between advisor and advisee.
 - D. The advisor will present a summary of the student's progress at the review meeting. The faculty will discuss the student's progress and development in academic and non-academic (e.g., professionalization, relationships with peers/faculty) areas. The student will normally be present during this discussion.
 - E. The faculty, in the student's absence, will decide on a rating of the student's progress. While the faculty may discuss their rationale for this rating, no new information will be added at this time. A final rating, decided by majority vote, will be given. There are two possible ratings:
 1. The student is making Satisfactory progress through the program: the student has completed the normal requirements for that year and is achieving at a satisfactory level in research, coursework, and practicum.
 2. The student's progress is Unsatisfactory: the student has not completed the normal requirements for the year or is not achieving at

a desired level in coursework and/or practicum. Students who receive an Unsatisfactory rating are sent a letter indicating the criteria for achievement of satisfactory progress (e.g., tasks to be achieved) and a timeline for completion. Such students may be reviewed again at the next mid-year or earlier, as specified in the faculty letter. Failure to attain satisfactory progress within the stated time period may move the faculty to take special action as the student approaches probationary status. Such actions include, but are not limited to, prohibiting involvement in the practicum selection process for the next year and/or reducing the course load. Students who received Unsatisfactory ratings for two consecutive years are automatically placed on probation.

3. The student is on formal Probation. A student may be put on probation by the Graduate College if their grade point average falls below the necessary minimum. A student will also be put on probation by the Counseling Psychology faculty when two sequential years receive a designation of Unsatisfactory progress. When a student is put on probation, this rating is accompanied by a letter to the student which clearly specifies the nature of the deficiencies, the criteria for removing or addressing the deficiencies, and the length of time of the probationary period. If the end of the probationary period does not coincide with an annual review meeting, the faculty will review the student at the first regularly scheduled faculty meeting after the close of the probationary period. At this meeting, the advisor, with the student if the student so chooses, will present the degree to which the student has fulfilled the stipulations. In the student's absence, if the student has met with the faculty, the faculty will decide, by majority vote, either (a) to remove the student from probationary status, (b) to extend the probationary period, or (c) to terminate the student from the program. A student may receive only one extension of the probationary period.
 4. A student, for reasons which are both extremely serious and unusual in nature (e.g., serious violation of ethical codes, failing grade [D or F] in a course), may be terminated from the program without a probationary period. In this case, the faculty would hold a formal review of the student prior to the termination action which would follow the guidelines presented in I, C, D, and E.
- F. The coordinator will write the student after the evaluation meeting to report the progress rating and to summarize the faculty discussion of progress.
 - G. If the student wishes to disagree with the faculty evaluation, they may address the faculty in writing, through the coordinator, concerning points of disagreement. The coordinator will inform the faculty at the next

regularly scheduled meeting of the student's disagreement. The student has the option of requesting, through the advisor, a special faculty meeting to discuss the points of disagreement.

- H. The letter to the student, and the student's points of disagreement if there are any, will be kept in the student's permanent file.

II. Supplementary review procedures

- A. Prior to registering each semester, students will meet with or email their advisor to discuss the student's progress for the prior semester and plans for the upcoming semester. The advisor must approve all coursework and endorse all extra-coursework experiences. For the first three years, students must register on a full-time basis (9 semester hours, minimum), excluding summer semester.
- B. A student and their advisor, or any faculty member, has the option of calling for a special review meeting at any time during the course of an academic year by communicating such a request in writing to the Coordinator. The format for such a meeting is the same as that of the end-of-year review.

B. Graduation Contracting Policy and Procedures

- 1) Students not completing the Counseling Psychology program by the end of their sixth year (excluding any leaves of absence) shall file a written plan for completion with the Coordinator of the Counseling Psychology program. This plan will include both tasks and timeline for completion and will be approved and signed by the student's advisor prior to submission.
- 2) The Counseling Psychology faculty will then review the plan.
- 3) Plans will be updated by the student and advisor and reviewed by the faculty on a bi-annual basis. The faculty may request a meeting with any student who is not meeting the timelines in the approved plan.
- 4) In order to maintain satisfactory progress in the Counseling Psychology program, students must meet the timelines in their approved plan.
- 5) Students may request a leave of absence of no more than two semesters following the filing of their plan. During this time, they are not required to work toward completion of their degree. During the leave, students are not to be employed or working on any psychology or counseling related activities as a professional or para-professional, unless approved by the faculty. Only one such leave will be approved by the faculty for each student. Toward the end of the semester on which the student is on leave, the faculty will inquire about the student's interest

in the program. At the end of the leave, the student must be enrolled as a full-time student or withdraw from the program.

C. Policy on Class Attendance

Students in the Ph.D. Program in Counseling Psychology at the University of Iowa are expected to attend all classes. Obviously, if extenuating circumstances occur, students may have to miss class on occasion, and/or be out of town, as may faculty. Examples of what may be considered extenuating include but are not limited to illness and family/personal emergencies. Students must request permission in advance for absences that are not emergent. Approval may or may not be given depending on the situation. Difficulty has arisen in the past when students are gone for an extended time period (e.g. five class days) and/or frequently during a given semester without anyone's knowledge and without permission. The cardinal rule is to clear all absences in advance when possible. This clearance should occur with classes, assistantship, and at practicum sites, and any other professional role you may hold associated with the program.

When students are enrolled in practicum and seeing clients, as is true for any professional psychologist, one cannot just "up and leave" – client welfare must come first. Again, such absences need to be cleared in advance with both the Counseling Psychology faculty and the practicum site. Professional responsibility, ethics, and liability all require that this be done. Violation of this policy will result in a meeting between the student and the entire Counseling Psychology faculty to discuss what has occurred, why, and appropriate consequences.

D. Social Network Statement

Students who use social networking sites (e.g., Facebook, Instagram, Twitter, etc.) and other forms of electronic communication should be mindful of how their communication may be perceived by clients, colleagues, faculty, and other mental health professionals. As such, students should make every effort to minimize visual or printed material that may be deemed inappropriate for a professional counselor or psychologist. To this end, students should set all security settings to "private" and should avoid posting information/photos and avoid using any language that could jeopardize their professional image. Students should consider limiting the amount of personal information posted on these sites and should never include clients, undergraduate or graduate students (for whom they have served as an instructor) as part of their social network, since doing so constitutes a boundary violation. Additionally, any information that might lead to the identification of a client or represent a violation of client confidentiality is a breach of the ethical standards that govern the practice of counselors, psychologists and mental health professionals in training. Engaging in these types of actions could result in the student being dismissed from the program.

University of Iowa
Counseling Psychology Program

Policy on Student Ethical Misconduct, Problematic Behavior, Academic Performance, and
Competence

(This policy draws on the policies of a variety of academic/educational programs at Seton hall University, Penn State University, Yale University, University of Washington, The University of Iowa, and Texas Women’s University.)

Introduction

The purpose of this policy is to clarify and identify areas of professionalism, academic performance, and ethical conduct expected of the students in the Counseling Psychology Program at The University of Iowa, and to describe the procedures for identifying, assessing, and addressing issues related to impairment, ethical misconduct, problematic behavior, academic performance concerns, and competence.

The Counseling Psychology Program at The University of Iowa has a responsibility to protect clients, students, faculty, and the public from harm. The Program also has a responsibility to protect students’ rights. The program is governed by the American Psychological Association’s Ethical Principles and Code of Conduct.

Definitions

Impairment is defined as an interference in professional functioning that is reflected in one or more of the following ways:

- Inability or unwillingness to acquire and integrate professional standards into one’s repertoire of professional behavior;
- Inability to acquire professional skills and perform at an accepted level of competency;
- or
- Inability to control personal stress, psychological dysfunction, or emotional reactions that may affect professional functioning.

Incompetence is defined as a lack of ability, which may include either professional or interpersonal skill, or academic deficiency. When students continue to provide psychological services beyond their current level of competence, this is an ethical violation.

Ethical Misconduct occurs when the Ethical Principles of Psychologists and Code of Conduct produced by the American Psychological Association (APA) are not followed. This code is intended to provide both the general principles and the specific decision rules to cover most situations encountered by psychologists in their professional activities. It has as its primary goal the welfare and protection of the individuals and groups with whom psychologists work. It is the individual responsibility of each psychologist to aspire to the highest possible standards of conduct. Psychologists respect and protect human and civil rights, and do not knowingly participate in or condone unfair discriminatory practices.

Problematic Behaviors refer to a student’s behaviors, attitudes, or characteristics that may require remediation, but are perceived as not excessive or unexpected for professionals in training. Performance anxiety, discomfort with clients’ diverse lifestyles and ethnic backgrounds, and lack of appreciation of agency norms are examples of problematic behaviors that are usually remedied and not likely to progress into impairment status.

[Lamb, Cochran, & Jackson (1991). Professional Psychology: Research and Practice, 22, 291-296.]

Procedures

Impairment, incompetence, ethical misconduct, academic performance issues, and/or problematic behavior may be identified in a variety of ways and by a variety of persons, including but not limited to students, faculty, supervisors, clients, and/or members of the public. Any concern raised should be brought to the Program Coordinator. Confidentiality must be ensured. When a potential concern reaches the Program Coordinator, the Coordinator will inform all members of the Counseling Psychology Faculty and the issue will be discussed at the next faculty meeting, unless in the judgment of the faculty a special meeting should be called.

Following this meeting, the student will be informed in writing by the Program Coordinator of the issues surrounding the case and asked to meet with the entire Counseling Psychology Faculty to discuss the situation.

Areas to be reviewed and discussed at this meeting will likely include the nature, severity, and consequences of the situation. The following questions, among others, may be posed at this stage (adapted from Lamb, Cochran, & Jackson, 1991):

1. What are the actual behaviors that are of concern, and how are those behaviors related to the goals of the program?
2. How and in what settings have these behaviors been manifested?
3. What were the negative consequences for the training agency or others (e.g., clients, other students) of the problematic behaviors.
4. Who observed the behaviors in question?
5. Who or what was affected by the behavior (clients, agency, atmosphere, training program, etc.)?
6. What was the frequency of this behavior?
7. Has the student been made aware of this behavior before the meeting, and if so, what was the response?
8. Has the feedback regarding the behavior been documented in any way?
9. How serious is this behavior on the continuum of ethical and professional behavior?
10. What are the student's ideas about how the problem may be remediated?

While each case is different and requires individual assessment, the following factors may indicate that the problem is more serious and may represent an impairment rather than a problematic behavior:

1. The student does not acknowledge, understand or address the problematic behavior when it is identified.
2. The problematic behavior is not merely a reflection of a skill deficit that can be rectified by training.
3. The quality of service delivered by the person suffers.

4. The problematic behavior is not restricted to one area of professional functioning.
5. The behavior has the potential for ethical or legal ramifications if not addressed.
6. A disproportionate amount of attention by training personnel is required.
7. Behavior does not change as a function of feedback.
8. Behavior negatively affects public image of agency of the university or training site.

Ample time will be allowed in this meeting for the student to present views of the situation and to ask questions.

After this meeting with the student, the faculty will meet to determine next steps. If the faculty determines that further steps are required in response to the situation, they will develop a written plan for remediation or some other appropriate course of action (in rare cases, termination from the program) and will schedule a meeting to discuss this concern with the student within four weeks of their initial meeting with the student. Students may submit their own ideas for remediation to the faculty, through their advisors. The faculty will consider the student's recommendations in developing their own recommendations. The plan will be in writing and documented by the student's advisor.

The student will be given the opportunity to accept the recommendations, to provide a written rebuttal, and/or to appeal. If the student chooses to provide a rebuttal, the program faculty will meet again to consider any new evidence presented by the student and will provide written documentation of their decision within three weeks of the date the rebuttal was received. If the student wishes to appeal the faculty's decision, he or she may contact the DEO.

Regardless of the outcome of the meeting, the student and advisor will schedule a follow-up meeting to evaluate the student's adjustment to the process, and to recommend potential sources of guidance and assistance when necessary.

The remediation process will follow the written plan, which must include scheduled review dates and target dates for each issue identified. Examples of actions that may be included in the remediation plan include – but are not limited to – an increase in didactic instruction, a decrease in course load, a decrease in or temporary suspension of clinical responsibilities, increased supervision and/or faculty advisement, leave of absence, and individual psychotherapy. Progress for the initial remediation plan will be monitored at each faculty meeting for one semester (or a period specified by the faculty). After the six-month (or specified) period, the faculty will determine if the student has successfully addressed all components of the remediation plan. If not, the student may be placed onto a second remediation plan, which is considered a formal disciplinary action by the counseling psychology program and will be reported to APPIC on the student's application for internship. Students will be placed onto disciplinary action for a period of time determined by the Counseling Psychology faculty. Progress during the disciplinary action period must be reviewed at least once every semester for the Fall and Spring semesters for one year. Additional reviews may be scheduled as necessary. After each review, a copy of the current Remediation Plan, including student comments and faculty signatures must be filed in the student's portfolio. If progress is viewed by the faculty as insufficient during either the initial remediation plan or disciplinary action periods, they may recommend either a change in the

remediation plan or dismissal. The student will have an opportunity for rebuttal or appeal, as described above.

Academic Performance

We expect CP students to maintain acceptable grades in all their courses. In courses where grades are given (i.e., A through F), doctoral students are expected to make grades of B or better. Receiving a C in a course does not reflect adequate performance in the course. In those cases where students receive a C in their course, the following procedures will apply.

Students receiving their first C (- or +) must inform their advisor immediately and will be put on an internal academic remediation plan with the counseling psychology program. The remediation plan will include the following stipulations. First, the student will need to meet with the faculty to discuss academic progress issues. Second, the student will be mandated to retake the course to make a grade of B or better. Third, the student will consult with their faculty advisor to discuss time management, study skills, and schedule changes to assist the student with their academic progress. The student will have one year to meet these stipulations. If the plan is not successfully completed within one year, the faculty will follow-up with disciplinary action. If students receive more than one C (- or +) in any semester or receive a second C (- or +) during their course work, faculty will convene to discuss appropriate action which may include a determination of failure to make successful academic progress.

In those cases, wherein the student fails to make successful academic progress, the student will meet with the faculty to discuss termination from the program. Failure to make satisfactory academic progress may be defined as: (a) earning grades of C in two or more courses; (b) receiving a non-satisfactory in any courses where grades are given by Satisfactory (S) or Non-Satisfactory (NS); or (c) failing any graduate-level academic course (grade of D or F).

Additional Points of Emphasis

- A. Not every contingency can be covered in this policy. Exceptions may be made in unusual circumstances and/or if public/student welfare is at risk.
- B. Confidentiality should be maintained at all times.
- C. This policy is subject to annual review/revision.

IV.

STUDENT COMPLAINT PROCEDURES College of Education

Student complaint procedures can be found on the following COE link <https://education.uiowa.edu/services/office-dean/policies/student-complaint-procedure>. Text from the link is provided here:

Options for Student Complaints (Summary)

Current Procedures for Undergraduate & Graduate Students

1. Speak directly to the person against whom you have a complaint. If not resolved:
2. Speak to that person's Departmental Chairperson. If not resolved:
3. Meet with the [Associate Dean for Teacher Education and Student Services](#) (TEP students) or the [Associate Dean of Academic Affairs and Graduate Programs](#) (graduate students). If not resolved:
4. File a written statement with the [Dean of the College of Education](#).

If no resolution, go to the [University Ombudsperson](#).

Alternatives to Current Procedures

For Graduate Students

<ul style="list-style-type: none"> • Code of Student Life • Manual of Rules and Regulations of the Graduate College • Graduate College Academic Policies • Academic Grievance Procedures for Graduate Students • University Policy on Human Rights • Policies and Regulations Affecting Students

College of Education Student Complaint Procedures (full)

The faculty and staff of the College of Education have every expectation that you will be successful and happy here. However, we also recognize that occasionally students may find themselves in a situation that requires assistance. The University of Iowa and the College of Education have clear policies designed to protect student rights. The

policies can be found in a variety of locations including the University Catalog and the University's web site. If you feel your rights have been violated:

1. **1. Learn more about your rights and responsibilities.**

You may obtain copies of relevant policies from a number of locations including:

- [The Office of the Dean](#), College of Education, N201 Lindquist Center, 335-6111
- [Office of Equal Opportunity & Diversity](#), 202 Jessup Hall, 335-0705
- [Division of Student Life](#), 135 Iowa Memorial Union, 335-3557
- [The Graduate College](#), 205 Gilmore Hall, 335-2144
- [The University General Catalog](#)
- The University Operations Manual's policy on [Professional Ethics and Academic Responsibilities](#)
- The University's web site on [Policies and Regulations Affecting Students](#)

2. **2. Seek information and support.**

Talking with someone often helps to lessen isolation and may help you to develop productive strategies and make decisions. However, it is necessary, in an ethical environment, that you take care to secure the confidence of the person with whom you are speaking. That may be a friend, family member, mentor, or counselor. The questions that might be helpful to ask could include:

- What happened here and how do I feel about it?
- Is what happened to me within the norms of my academic community? Are those healthy, ethical norms?
- If I feel badly about what happened, what can I do about it? What are my options and what are the possible consequences of each?

3. **3. Explore your informal and formal options.**

Before pursuing resolution, document the incidents that have occurred. If possible, include dates, locations, context, and as much detail information as you can remember. Keep copies of all correspondence and document all contacts.

Following are the steps in the College of Education's current written procedures:

- If possible, talk to the person you have a complaint about directly or write a letter. Be prepared to clearly articulate your concerns and the resolution you are seeking.
- If you are uncomfortable talking directly to the person you have a complaint about or cannot resolve the problem, talk to the departmental executive officer. If you don't know who this is, ask other students or ask a faculty member.
- If the problem remains unresolved, talk to the appropriate Associate Dean. Undergraduates and master's level students in the teacher education program should contact the Associate Dean for Teacher Education and Student Services,

N310 LC, 335-5336. Graduate students should contact the Associate Dean for Academic Affairs and Graduate Programs, N459 LC, 335-5383.

- If there is still no resolution, file a written report with the Dean of the College of Education, N459 LC, 335-6111.

If you are not satisfied with the actions of the Dean, you may seek assistance from one or more of the other sources that are always available to you:

- If it seems there is no appropriate policy or office, contact the [Office of the University Ombudsperson](#), C108 Seashore Hall, 335-3608. This office responds to problems from faculty, staff, and students, which appear unresolvable through existing procedures or systems.
- Graduate students may contact the [Associate Dean of the Graduate College](#), 205 Gilmore Hall, 335-2144.
- Undergraduate students may contact the Dean of Students, 135 IMU, 335-1162.
- If the issue is a discrimination or harassment issue and you prefer not to talk to anyone in the College, you may contact the [Office of Equal Opportunity & Diversity](#) directly. That office will provide formal or informal support and guidance. If you should elect to file a formal complaint and initiate an investigation, this is where you do it.

Confidentiality is always a major concern when violations occur. Only you have the right to go "public" with a complaint. A DEO, a Dean, or any campus office will maintain confidentiality if you request that they do so (unless there is a life in danger). It is also possible to talk about incidents without "naming names". You can control the process.

approved August 2001 (updated August 2006)

Student Disabilities. Students with disabilities are able to work with Student Disability Services for assistance. Information about SDS is found at: <https://sds.studentlife.uiowa.edu>

Sexual Harassment. The University sexual harassment policy is located at: <https://opsmanual.uiowa.edu/community-policies/sexual-harassment>

V. Financial Assistance

In the past, most graduate students in Counseling Psychology desiring financial support have received it for a major portion of their graduate program. Sources of funding include teaching and research assistantships, and professional employment in other areas of the University or community. All employment is undertaken after consultation with, and approval from, the major advisor. If you are interested in receiving general financial aid information, please contact the Student Financial Aid Office, Calvin Hall.

Special Graduate Assistantships are open to graduate students pursuing any advanced degree program offered by the College of Education. These assistantships are half-time appointments (20 hrs.) that carry both a stipend and a waiver of the non-resident portion of tuition. During the assistantship, students pursue both individual and collaborative research projects with a faculty member advisor. These appointments are renewable, although no summer support is available through this program. The application must be filed on a special form obtained from the Chair of the Selection Committee, 334 Lindquist Center for Measurement, University of Iowa, Iowa City, IA 52242. The deadline for completed applications for these Special Graduate Assistantships is usually in late February.

Information about other scholarships and awards offered through the College of Education is located at the following website: <https://education.uiowa.edu/services/office-dean/scholarships-and-awards>. Information regarding scholarships and awards offered through the Graduate College can be found at the following website: <https://www.grad.uiowa.edu/funding>.

VI. Student Employment/Extracurricular Experience Guidelines

The following policies apply to students' extracurricular experiences, including but not limited to assistantships, traineeships, and other employment, while the student is enrolled in the Counseling Psychology program:

1. The advisor must endorse all professional extracurricular experiences, both paid and unpaid. The student should obtain the advisor's endorsement prior to commencing any such experience and file the appropriate form with the coordinator within one week of beginning the experience.
2. The advisor will evaluate the following aspects of professional employment and extracurricular experiences:
 - a. the agency, the client population, the responsibilities and tasks to be performed by the student;
 - b. the degree of independent functioning assumed by the student;
 - c. the supervision provided to the student (who would be supervising, the supervision and monitoring process, the licensure status of the supervisor).

3. If the student, as part of his or her employment or on a volunteer basis, is offering psychological services (including, but not limited to, assessment and counseling/psychotherapy), the following provisions apply:
 - a. The student must be supervised by a licensed psychologist.
 - b. The amount of supervision must be proportionally similar to that obtained on practicum placement.
 - c. The employment endorsement form must be co-signed by the supervising psychologist.
 - d. Along with the employment form, the student must submit a letter from the supervising psychologist that specifies the nature and extent of supervision.
 - e. The supervising psychologist must attest in writing that the student's work is covered by the supervising psychologist's malpractice insurance.
 - f. The student's experiences in this category must be approved (by majority vote) by the Counseling Psychology faculty prior to the student's commencing the experience. The faculty should be provided, via the coordinator, the endorsement form, the covering letter from the supervisor documenting the supervision, the information regarding malpractice coverage, and the student's statement of qualifications for the position.
4. If a student is employed, reduced schedules for class registration apply. According to Graduate College regulations, students working half-time (20 hours each week) should register for not more than 12 semester hours during a semester or 6 semester hours during the eight-week summer session, students working five-eighths time (25 hours each week) should register for not more than 10 semester hours during a semester or 5 semester hours during the eight-week summer session, and students working two-thirds and three-quarter-time should register for not more than 9 semester hours during a semester or 5 semester hours during the eight week summer session.
5. A student's failure to follow these policies is grounds for dismissal from the Counseling Psychology program on the basis of ethical violations.

Guidelines for students who are obtaining training in a related mental health area:

The advisor and student work together to assure that the following guidelines are met during a particular training experience. If the student is receiving any remuneration for his or her work, then guidelines for employment apply.

1. A student shall self-identify as a trainee of the particular area (e.g., substance abuse counselor, pastoral services trainee) and not as a psychologist or a psychology student.

2. The supervision shall be by a qualified person in the mental health area and of a quantity and quality usually provided in the area.
3. The student shall adhere to the APA's Ethical Principles of Psychologists and any additional ethical standards or codes of the mental health area.
4. The advisor shall maintain a record of the training experience, including documentation of the supervision and evaluation by the supervisor, in the student's advising file.
5. It would be inappropriate for the student to list this experience as psychology training in intern or job applications or to count this time as supervised practice in psychology.

Employment Endorsement Form

Student's name _____ Semester, year _____

- 1 Name and address of the agency:

2. Tasks to be performed:

3. How much time (hours) per week is involved:

4. Nature of the client population:

5. Nature and extent of supervision:

6. Other information:

Student's signature_____
Advisor's signature_____
Supervisor's signature (if necessary)

This form is to be filled out in duplicate; one copy is kept by the advisor and the other copy is forwarded to the coordinator.

**Employment Form for Those Employed at the Same Site as Practicum
(Form must be typed)**

- This form is to be completed by students who are employed (paid position) at a site in which they are also a practicum student.
- The description of both activities must be discreet and independent of each other.

Student's name _____ Semester, year _____

VII. Miscellaneous

A. Offices

All students who receive financial support via a research or teaching assistantship qualify for office space. Offices may be available for other students as well. These students should consult the Program Coordinator prior to requesting office space. All requests for office space are handled by Kunjal Harwani in the Psychological and Quantitative Foundations Department Office. Allocation of keys and office furniture is also coordinated by Kunjal Harwani. Keys for access to Lindquist Center during evening and weekend hours can also be requested.

B. Mailboxes

A CP mailbox is located in 361 Lindquist Center. Students can use 361 Lindquist Center as their campus mailing address. All mail sent to CP students is delivered to this address, even if they have an office.

C. Memberships in Professional Organizations

Students are strongly encouraged to take an active role in local, state, and national professional organizations. To find out about membership and activities in these organizations, students are encouraged to contact the appropriate faculty member(s) and/or speak with their advisor. Membership materials, information about awards, and information about deadlines for submissions and presentations at conventions are available from the appropriate faculty members and/or advisors.

D. Travel Support

Some semesters, the College of Education will provide each program with some monies to distribute for travel. The counseling psychology program administrates these funds and will notify students when such funds are available. Students interested in receiving reimbursement must submit a rationale for the conference, training, or research. The faculty will review each application and notify students within 60 days of their request. Once funding is approved, subsequent to the conference, training, or research, students submit receipts for reimbursement to the program coordinator.

E. Iowa City Information

There is one description of Iowa City which sums up the atmosphere of the town and the University: “a people place” with a remarkable blend of small town intimacy and big city opportunities. The University campus, with its thirty thousand students and thirteen hundred acres of facilities, is the focal point of the community. Students and residents alike benefit from the air of excitement and challenge generated by the activities of the

University. The University Lecture Series annually presents internationally recognized artists and scholars.

From the University's extensive permanent collection, and many travelling collections, major art works are displayed in the Stanley Museum of Art, recognized as one of the nation's finest.

Students interested in spectator sports have the opportunity to see some of the finest intercollegiate competition for both men and women in the nation, as Iowa meets Big Ten and nationally ranked nonconference rivals. Iowa has a full range of sports events held in comfortable facilities for the spectator. For men's sports these include football, basketball, indoor and outdoor track, cross country, baseball, wrestling, and golf. In women's sports there are teams for basketball, gymnastics, golf, track, field hockey, volleyball, cross country, and tennis. Those students interested in participation sports and physical fitness may use the University's facilities for swimming, handball, racquetball, basketball, running, weight lifting, tennis, and golf, and may participate in the outstanding campus intramural athletic program. Nearby Lake Macbride and the Coralville Reservoir offer water sport, picnic, and camping facilities. The Iowa River, which flows through the campus, is ideal for canoeing, rowing, and fishing. A large city park with outdoor pool facilities is alongside the riverbank.

Iowa City is a community with a metropolitan population of eighty thousand whose assets include an excellent library; a Community Recreation Center with indoor swimming pool, gymnasium, craft, game and meeting rooms; a well-developed program of public services including a fine bus system to complement the University's Cambus system; and shops and stores which cater to unique tastes as well as everyday needs. Iowa City and the surrounding communities also boast extensive community theatre on campus and in Iowa City and Cedar Rapids. Theatre opportunities exist for those who desire to be part of the audience as well as being part of the cast and crew who make theatre happen!

F. Guidelines for Research Requirements for the Ph.D.

The process of completing research requirements for counseling psychology can be a confusing one for advisors and students. There are specific sources of assistance for this process. Resource persons (advisor, other faculty), academic coursework, and written materials (e.g., Manual of Rules and Regulations of the Graduate College, Counseling Psychology Student/Faculty Handbook, Ethical Principles of Psychologists, APA Publication Manual) are available to deal with many of the aspects of conducting and reporting on research. However, there are areas of potential ambiguity arising out of the balance of individual versus shared contributions to the research. On the one hand, the student is the author of the research, and such authorship indicates major or primary responsibility for the research. On the other hand, the student receives substantive assistance from the sources described above. Such substantive assistance can involve formulating the problem, structuring the experimental design, organizing and conducting the study, collecting the data, entering the data into the computer, programming the analyses, or interpreting the results. It is difficult to specify "rules" for determining when such assistance violates the spirit and intent of the student's authorship of the research

project. Therefore, the following suggestions about responsibilities are given for both advisors and students:

1. Consult about research plans that involve any degree of supportive assistance, including amount to be paid to a consultant, if any; specific tasks to be completed by others; and rationale for use of others.
2. Discuss appropriate procedures and questions to use when requesting consultation about research projects.
3. Acknowledge supportive contributions within the thesis.
4. Maintain as a guideline that advisor and student are able to convey to the committee an accurate, comprehensive, and personal understanding of the problem, design, data collection, statistical analysis, and interpretation of the study.
5. In formulating the literature review, all sources should be cited. APA ethics prohibit plagiarism; however, the advisor and student should also be sure that the literature review reflects the student's integration of the research that has been used to justify the research project.

G. Student Records

Official student folders are held on a secure drive available to faculty in the program. The COE Office of Student Services (Lindquist Center, N310) creates and maintains these files as official student files. In this official file are students' original application materials, acceptance letters, fellowship letters (when applicable), program of study, comprehensive exam results, and dissertation defense results. Application materials are maintained on the campus MAUI records system. The program coordinator keeps an unofficial advising folder for all students in the program. In this file are assistantship contracts (when applicable), practicum hour documentation and evaluations, annual progress letters and documentation, requests for curriculum waivers (copies), and any correspondence related to performance, academic progress, and/or impairment.
