Copying from a MiniDV Tape to DVD or VHS

1. Connect the AC adapter to the camcorder.

2. Load tape into the camcorder.
   a. Slide the latch on the bottom of the camcorder. Make sure the cassette is locked so it can't be erased.

3. Set the camcorder power to VCR.

4. Connect the camcorder to the DVD/VHS recorder.
   a. Open the plastic flap on the right side of the camcorder.
   b. Connect the From Recorder cable to the Audio/Video jack. Make sure the cable is plugged into the Video and Audio jacks on the front of the recorder.

5. Turn on the DVD/VHS recorder and set input to Line 2, if it's not already set.
   a. Press Power on the left end of the display panel.
   b. Press DVD or VHS on the remote control.
   c. Press Input on the remote until Line 2 shows on the recorder display panel.

6. Insert a blank DVD or VHS tape into the recorder.

7. Turn on the TV monitor.

8. Test the connection.
   a. Open the camcorder viewfinder.
   b. Press the Play arrow on the screen. The video should appear in both the viewfinder and the monitor.
   c. After the test, rewind the video as needed.

9. Press Record on the recorder.

11. DVD only: Finalize the disc.
   a. On the remote control, press System Menu.
   b. Use the direction buttons on the remote to select Disc Setting, and press Enter.
   c. Select Disc Finalize, then Finalize, and press Enter.
   d. Select OK and press Enter.
   e. Press System Menu again to clear the monitor display.
12. **When everything's done:**
   a. Press Eject to remove the DVD or tape from the recorder.
   b. Remove your miniDV tape from the camcorder.
   c. Disconnect the camcorder from the recorder.
   d. Disconnect the AC adapter from the camcorder.
   e. Put the camcorder, AC adapter, firewire cable, and DVR/VHS remote control into the case and return it.

---
